___002___ District

SECTION 1 – PROBLEM SOLVING PRIORITIES

Outline one to three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. **Please ensure responses are specific and detailed.**

PROBLEM SOLVING PRIORITY #1

Scanning	Priority Title	Gun Violence			
	Priority Type	<input checked="" type="checkbox"/> Violent Crime		<input type="checkbox"/> Property Crime	
	Source <i>Check all that apply</i>	<input type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input checked="" type="checkbox"/> Crime Data	<input type="checkbox"/> Community Interactions	<input type="checkbox"/> Beat Meetings	<input type="checkbox"/> Other: _____
Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	During the community conversation, violent crime was identified as a concern for many residents. The 002 nd District has seen an increase in homicides of 26% and shooting incidents of 44.4%. Shooting incidents are still trending down 5.7 % over a three-year period. However, the over the last three years the 002 nd District has seen an overall decline in violent crime of 17%. Over the past 3 months violent crime incidents have decreased 44%. In 78% of the reported homicides for 2019, a handgun was used. 79% of shooting victims have IR numbers.				
Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	1. <i>Who is / are the victim(s)?</i> The victims tend to be rival gang members or individuals that are in conflict with opposing gang factions. The community members who reside within the boundaries of where there are multiple gang factions are innocent bystanders caught in the middle of shootings.			
		2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i>			
		3. <i>Handguns are being utilized a majority of the time. There has been an uptick in vehicles being used to transport and provide offenders with an avenue of escape</i>			
		<i>Typical Time of Day (select all that apply): 1600-0200</i>	<input checked="" type="checkbox"/> 1 st Watch	<input type="checkbox"/> 2 nd Watch	<input checked="" type="checkbox"/> 3 rd Watch
	4. <i>What is the location of this criminal activity? Use street names to delineate the boundaries below:</i> The boundaries where the gun violence is likely to occur are on the following areas: <ul style="list-style-type: none"> Beat 213 - 37-43 King to State Beat 211 – 3600-3900 on Rhodes Beats: 225-231-232 (Violence Zone) 51-58 State to King Drive. 				
Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i>	The root causes of many of these shooting incidents are a direct result from rival gang conflicts or narcotic sale territory.

CHICAGO POLICE DEPARTMENT

Response	Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i>	Non-enforcement response (required): Increased foot patrols and community engagements. Officers starting with Supervisors leading the way will focus on having direct and meaningful contact with the community in which they serve. Positive community interactions, such as walk and talks with community members, business owners and all major stakeholders will be conducted, recorded and monitored for results and/or improvements.		
		Enforcement response (if applicable): Foot patrols, focused deterrence missions, POD missions and quality of life missions. Directed missions, such as traffic missions and increasing Officer presence in areas more vulnerable to shootings will be conducted. The different missions will increase police presence in areas identified by community members.		
	Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i>	Increased officer visibility, utilizing increased foot patrols, increased positive community interactions in which Officers get to know members of the community and business owners of the community would foster better trust and communications between all. This in turn leads to transfer of positive information that could be useful in keeping the community safe. Increased community engagement between officers and citizens would then be a deterrence for those who are out to harm the community.

CHICAGO POLICE DEPARTMENT

Assessment Plan	Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i>	By engaging the Police Department and other city agencies in conversations with the community, we realize violence is not just a problem to be solved between police and the community, but an issue that needs an all hands-on approach. There are a variety of social and economic issues that need to be addressed as well.		
	Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Then, list any other quantitative and qualitative outcomes that you will use to track progress.</i>	<i>Focus Metric (refer to the District Guidance Document for a list of aligned metrics):</i> Reduction in number of shootings <i>Additional Metrics:</i> Increased custom notification checks. Increase parole compliance checks.		
	Follow-Up Plan <i>Explain how the District will follow-up to ensure that the Response Strategy is having the desired impact</i>	<i>Over what time horizon will the Response Strategy be implemented? (select one)</i>	<input checked="" type="checkbox"/> 1 to 3 months	<input type="checkbox"/> 4 to 6 months <input type="checkbox"/> More than 6 months
	Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i>	<i>How frequently will District personnel follow-up to ensure the Response Strategy is having the desired impact?</i> This will be conducted on an as needed basis.		
		This priority will be assessed quantitatively by the number of shootings and calls for service. In addition to the quantitative assessment of this priority, a qualitative approach can be defined by the community sense of safety and valued input during the beat meetings.

PROBLEM SOLVING PRIORITY #2

Scanning	Priority Title	Robberies – Vehicular Hijackings		
	Priority Type	<input checked="" type="checkbox"/> Violent Crime		<input type="checkbox"/> Property Crime
	Source	<input type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings
	<i>Check all that apply</i>	<input checked="" type="checkbox"/> Crime Data	<input checked="" type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings
Analysis	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	The 002nd District has seen a 16.7% decrease in robberies over the past year. However, community members from Hyde Park, Grand Boulevard and Bronzeville voiced their concerns about the spike of robberies during the summer months. The 002nd District saw a 50% spike in armed robberies and aggravated vehicular hijackings during the second half of the calendar year.		
	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>5. <i>Who is / are the victim(s)? Victims are varied as these crimes are crimes of opportunity</i> Women and food delivery drivers were the primary targets of vehicular hijackings in the 002nd District.</p> <p>6. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Handguns have been used in 35% of robberies. Robberies-vehicular hijackings have occurred mainly on beats 214, 221, and 222. The analysis of this problem revealed that the majority of vehicles taken were left unattended. However, toward the latter portion of the year, offenders systematically sought out their victim, those sitting in their cars distracted (looking at their cellphones) and those warming their vehicles during the inclement months.</p>		
		<p><i>Typical Time of Day (select all that apply):</i></p> <p><input checked="" type="checkbox"/> 1st Watch <input checked="" type="checkbox"/> 2nd Watch <input checked="" type="checkbox"/> 3rd Watch</p>		
		<p>7. <i>What is the location of this criminal activity? Use street names to delineate the boundaries below:</i></p> <ul style="list-style-type: none"> • Beat 214 • Beat 221 • Beat 222: 4300-4700 King Dr. to Lake Park Ave. 		
Response	Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i>	Robberies are crimes of opportunity. Offenders generally seek out weaknesses, such as distracted victims not being aware of surroundings or vehicles left unattended with the ignition engaged. The data reveals that victims of vehicular hijackings left their car running while they went inside to pay for gas or mobile driver delivering food. Other complex root causes may contribute to opportunity crimes, i.e.: poverty, peer pressure, substance abuse, parental neglect, and joy-seeking adventures		
	Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i>	<p><i>Non-enforcement response (required):</i> Increase officer's presence by conducting foot patrols and community interaction on the identified beats. Educate the community by hosting a town hall, disseminate safety alerts to patrons at the gas station, alerting them about the dangers of leaving their vehicles running while unattended. Residents that attended the community conversation requested increased foot patrols such as walk and talks, police officers getting out of cars, increased presence in alleyways and residential blocks. These positive community interactions, such as walk and conversations, connections with business owners, and all significant stakeholders, will be documented by obtaining an event number and entering such data into the Clear system.</p> <p><i>Enforcement response (if applicable):</i> Directed patrol such as foot and traffic missions, increased officer's presence in areas where gun violence is likely to occur. Officers would also complete high visibility missions targeting specific crime patterns in identified</p>

	areas.		
Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i>	Increased officer visibility, utilizing foot patrols, and positive community interactions where officers become familiarize with members of the community and business owners. These various high visibility missions would foster healthy relationships and establish safety due to increased police presence. Increased community engagement between officers and citizens would then deter acts of violence and crimes of opportunity.

Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	Residents from both community conversations have voice their concerns regarding the narcotic sales, large gatherings, prostitute and the panhandling. While many of these offenses are minor violation, they often demoralize the community members from enjoying the peace, safety and security of their neighborhoods. The quality-of-life offenses involve acts that create physical disorder in the community that reflect social decay and contribute to violence such as gang activity, and vice crimes.		
		Who is / are the victim(s)? The victims of this priority are those who live close to any of the business corridor. In some cases, the frequent offenders of the quality-of-life offense filter into the residential area, often disrupting those stakeholders' peace and safety. 8. Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc. Residents who reside in the identified areas are continually complaining about narcotics sales, large gatherings, and panhandling throughout the day. In most cases, these offenders are loitering near CHA shatter site homes, gas stations, liquor and mini-food mart establishments

Response	Response Strategy Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.					
	Non-enforcement response (required): Increased foot patrols along business corridors. In addition to the increased foot patrols, officers will conduct daily in-person license checks to become familiar with business owners. Officers will also have higher visibility at Chicago Park District parks by adding foot patrols to these areas. Finally, officers will engage in positive community interactions in neighborhoods vulnerable to large public gatherings.					
	Enforcement response (if applicable): Officers will enforce quality of life issues such as open-air drinking or the selling of loose cigarettes by taking a zero-tolerance approach. Officers will aggressively monitor and disperse large gatherings that incorporate illegal activity within the crowds. Officers will issue citations to vehicles that are illegally parked and associated with large groups. Officers will also enforce gang and narcotics loitering ordinances.					
	Root Cause Mitigation Explain how the Response Strategy directly addresses the root cause that was analyzed above.					
	With officers being highly visible conducting foot patrols and being in spaces that tend to be vulnerable to large gatherings and illegal activities, the desired result would be that officers' presence would deter such actions, as mentioned earlier.
