

Community-Driven Approaches to Crime Reduction - District Strategic Plan

CHICAGO POLICE DEPARTMENT

District: 004

Year: 2025

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. **Please ensure responses are specific and detailed.**

PROBLEM SOLVING PRIORITY #1				
	Priority Title	Public Violence / Quality of Life		
	Priority Type	<input checked="" type="checkbox"/> Violent Crime	<input type="checkbox"/> Property Crime	<input checked="" type="checkbox"/> Quality of Life
	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings
		<input type="checkbox"/> Resident Survey Data	<input checked="" type="checkbox"/> Crime Data	<input type="checkbox"/> Community Interactions
			<input checked="" type="checkbox"/> Beat Meetings	<input checked="" type="checkbox"/> Other: 004 Field Units
Scanning	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>A longitudinal analysis of 004th District crime data (YTD, Year-Over-Year, 2024: Quarter-by-Quarter) indicated that over the 2024 calendar year, the listed boundaries have incurred a 400% increase from 2023 to 5 reported Homicides, a 71.4% increase to 12 Shooting incidents, and an increase of 31.9% total Violent CompStat crime. In addition, compared to 2023, Aggravated Batteries were up 18.5 %, Public Violence crime was up 15.2%, Robberies have increased 18.2%, and Thefts are up 54.5%. There has also been a notable amount of documented Calls for Service totaling 3,453.</p> <p>Although property crime as a whole is down 13%, thefts, some of which surround the business corridor are up 54.5%. These increases persist in an environment where index crimes in 2024 have trended dramatically downward at the time of this report most notably: Homicides are down 31% (citywide 8.6%), Shootings 11% (5.8%) and Armed Robberies 43% (32%)</p> <p>To complicate matters, there is an ongoing internal medium gang conflict (GC-A1-003-018) involving the Siron City, Gangster Disciples. The Boss Pimps faction of the Gangster Disciples are also known to have territory located in this priority zone. This zone shares geography with District Strategic Plan locations of previous years further indicating a persistent historic criminal presence.</p>		
	Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. <i>Who is / are the victim(s)?</i></p> <p>The true victims are the community members living in the area that are constantly made to feel unsafe due to the amount of public violence incidents plaguing this community. Unlawful narcotic sales and usage, and panhandling disproportionately affect our juveniles and our seniors. The retail business areas, which so many residents rely upon and in a citywide climate where business are withdrawing from high crime areas unable to keep up with the dual costs of recent inflation and crime, suffer financially as their patron's fear coming to the area, further effecting their sales. Children and youth living in these violent neighborhoods feel at risk; without non-violent conflict-resolution skills, they often readily depend on the perceived safety of carrying guns to solve problems. Exposure to gun violence increases the likelihood that they will use violence as a means of resolving problems, instead of through effective communication. The impact of gun violence has well documented long-term adverse effects on community well-being. This violence—in its many forms—affects every segment of the Community regardless of age, ethnicity, race, or other demographic categories. Because of the importance of the retail area, especially its grocery store coupled with the problems related to "food deserts" the impact extends geographically to areas outside the 004th district and into the 003rd and 006th.</p> <p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p>

	<p>In addition to shooting from fleeing vehicles, offenders regularly approach on foot after exiting a vehicle while wearing dark colored clothing. Offenders have been found to conceal their identity by covering their faces. Offenders in the majority of cases flee via vehicles using the major thoroughfares. Many of the vehicles used by the offenders have found to be stolen or taken in vehicular hijackings. The offenders when on foot use a network of loitering sympathetic bystanders who make efforts to aid offenders in making good their escape. The same agency of loitering contributes to the illicit narcotics sales and use, all while using the heavy retail traffic caused by such necessary businesses as a nexus for the selection of victims whether for violence related robbery or petty theft and or mere verbal harassment by antagonistic individuals, often suffering from mental health issues.</p>

<i>Typical Time of Day (select all that apply):</i>	<input checked="" type="checkbox"/> 1 st Watch	<input checked="" type="checkbox"/> 2 nd Watch	<input checked="" type="checkbox"/> 3 rd Watch		
	<p>2. <i>What is the location of this problematic activity? Use street names to delineate the boundaries below:</i></p> <ul style="list-style-type: none"> • Eastern Boundary: Blackstone • Western Boundary: Cregier • Northern Boundary: 75th St • Southern Boundary: 79th St 				
<p>Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i></p>	<p>Offenders face a lack of resources and poverty contribute to the problems. Although the main contributor to the problem of increased shootings is generational gang conflicts, gun violence can also be contributed to a number of community members many of whom are already known to the judicial system and who are also among the most likely offenders of gun violence. Alcohol and substance abuse are often associated with criminal behavior. Many offenders are under the influence of drugs or alcohol when offenses are committed. To a lesser extent, the influence of television and other multi-media on the behavior of offenders coupled with peer pressure. As children, offenders are found to be less successful in school, have lower attendance rates and are more likely to leave school early than their peers. Truants, or youth skipping school, experience many difficulties, the most obvious being unemployment. Geographically, the listed boundaries provide an ease of ingress and egress to those seeking to commit crime in addition to the increased parking lot and foot traffic due to the retail area. The close proximity to several major arterial roadways providing the highest level of mobility and the highest speeds over the longest uninterrupted distance. These arterial roadways lead to the Chicago Skyway, Stony Island Ave, 79th St and 75th St. All of this provides several "escape" routes for those offenders committing crime in the area. Because of its proximity on the 004th District's northern border/southern border of 003rd District and differing radio zones, an inconsistency of patrol can arise near the location.</p>				
<p>Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i></p>	<p><i>Non-enforcement response (required):</i></p> <p>The 004th District Community Policing team will increase awareness of the problem by historic means of flyers, prayer vigils, community engagement, listening sessions, direct advocacy and intervention. They will continue to act as liaison between the community and the patrol and enforcement in the 004th District. The DCO Team will focus their intervention by engaging with information from the alderperson, local businesses, and peer-to-peer conflict resolution as well as increasing access to private security cameras. Community engagement especially through Block Clubs and Community groups are pivotal to success of the intelligence used for field units to deploy. Phone trees are an effective tool for information and awareness.</p> <p><i>Enforcement response (if applicable):</i></p> <p>The 004th District is willing to collaborate with the 003rd District in trying to combat this problem using a joint team effort. The 004th District will monitor cameras accessible to them along with other technology utilized by its SDSC room. The 004th District will also work with our local business</p>

The identified watches will determine the peak time and location when shooting incidents / robberies occur on their watch. Request assistance from Community Safety Teams to address spikes in violence. Assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of violence can be quickly reviewed, and verified information can be disseminated to the patrol vehicles in real time. The 004th District Intelligence Officer and SDSC officers will collaborate with their counterparts in these Districts to ensure a fluid exchange of updated information.</p>		
<p>Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i></p>	<p>By employing deflection tactics (custom notifications), environmental tactics (vacant lot clean-up, fencing and lighting), coordination with our business partners within the area and enforcement tactics (tact teams, beat integrity and outside assistance from community safety teams) the 004th District will attack the root cause on multiple fronts.</p>

<p>Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i></p>	<p>Reinvigorating communities is essential if we are to deter crime and create more vital neighborhoods. In some communities, it will take time to break down barriers of apathy and mistrust so that meaningful partnerships can be forged. Trust is the value that underlies and links the components of community partnership and problem solving. A foundation of trust will allow 004th District Officers to form close relationships with the community that will produce solid achievements. Without trust between police and citizens, effective policing is impossible. Individually, community partners make small but meaningful contributions, but as a united front, these individuals working alongside the 004th District officers can make a significant impact on the lives of children, youth and members of the community exposed to gun violence in their homes as well as at their schools and in their communities.</p>

Assessment Plan	<p>Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Then, list any other quantitative and qualitative outcomes that you will use to track progress.</i></p>	<p><i>Focus Metric (refer to the District Guidance Document for a list of aligned metrics):</i></p> <p>By monitoring the below listed metrics the 004th District Command Staff will be able to determine whether or not the aforementioned strategies are reducing violent crime in the affected area. Decrease in the amount of calls for service related to shots fired. Decrease in the amount of calls related to aggravated batteries. Decrease in the amount of documented/reported robberies involving a firearm. Decrease in the amount of homicides. Decrease in the amount of calls related to quality of life. Decreases in the number of calls related to property crimes.</p> <p><i>Additional Metrics:</i></p> <p>Public perception is a key indicator in building and reinforcing the partnership between the 004th District and the community. Information garnered from community members at beat meetings and other community engagements on whether or not they are seeing a decrease in violent crime in the listed boundaries.</p>			
	<p>Follow-Up Plan <i>Explain how the District will follow-up to ensure that the Response Strategy is having the desired impact</i></p>	<p><i>Over what time horizon will the Response Strategy be implemented? (select one)</i></p>	<input type="checkbox"/> 1 to 3 months	<input checked="" type="checkbox"/> 4 to 6 months	<input type="checkbox"/> More than 6 months
	<p>Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i></p>	<p><i>How frequently will District personnel follow-up to ensure the Response Strategy is having the desired impact?</i></p> <p>In order to analyze the strategies being instituted to combat these crime issues a number of factors will have an unintended effect. Weather is an obvious factor in deterring crime. In order to have a clearer picture into whether or not our strategies are in fact working, a period of 4-6 months would be optimal. Seeing a continued and sustained decrease in the amount of documented incidents would ensure our strategies are working.</p> <p>The problem will be addressed when we see a significant decline not only in the amount of calls for service but in the amount of documented incidents. Although we must keep in mind that success can only be obtained if the documented strategies continue to work and show steady decline. Otherwise, independent variables could be responsible for a momentary decline.</p>

PROBLEM SOLVING PRIORITY #2

Scanning	Priority Title	Gang Violence / Motor Vehicle Theft & General Theft				
	Priority Type	<input checked="" type="checkbox"/> Violent Crime		<input checked="" type="checkbox"/> Property Crime		<input type="checkbox"/> Quality of Life
	Source <i>Check all that apply</i>	<input type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations		<input type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input checked="" type="checkbox"/> Crime Data	<input type="checkbox"/> Community Interactions		<input checked="" type="checkbox"/> Beat Meetings	<input checked="" type="checkbox"/> Other: 004 Field Units
Analysis	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>A longitudinal analysis of 004th District crime data (YTD, Year-Over-Year, 2024: Quarter-by-Quarter) indicated that over the 2024 calendar year, the listed boundaries have incurred a 14.6% increase in gang related violence, shots fired were up 9.5%, calls for service increased by over 100 incidents, and theft rose by a staggering 65.7%. Additionally, robberies were increased 33.3% with an increase of 4 occurrences after having reduced robberies, in 2023, in the same area by 50% which reflects the concerns voiced by the community at recent 432 beat meetings. The area's main thoroughfares of 106th St & Ewing, access to the Skyway, and Indianapolis Blvd which act as gateways to NW Indiana and junction to the 90/94 Express Way, draw community member at large from the adjacent beats: 434, 423, & 424</p> <p>There is an ongoing historic medium gang conflict involving the Latin Kings, Spanish Vice Lords and Latin Counts (GC-A2-004-011) with the area comprised being declared Latin King Territory.</p>				
	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. <i>Who is / are the victim(s)?</i></p> <p>As in Priority #1, the true victims are the community members living in the area that constantly feel unsafe due to the amount of robbery incidents and violent crimes plaguing this community. Small business owners, suffer financially from income instability and lost revenue as patron's fear coming to the area at what once were peak times of day. Children and youth living in these violent neighborhoods either feel at risk or emboldened; without non-violent conflict-resolution skills, they too readily depend on guns to solve problems. Exposure to gun violence increases the likelihood that they will use violence as a means of resolving problems, instead of through effective communication. Attraction to a "gangster" lifestyle is pervasive amongst youth, who indicate feelings of diminished options and opportunities relative to their socio-economic status. The impact of violent crime will have long-term adverse effects on community well-being. This violence—in its many forms—affects every segment of the Community regardless of age, ethnicity, race, or other demographic categories</p> <p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Robbery offenders tend to be in their late teens and early 20s. Most of the offenders involved were under 21, and many of the others under 25. Second, the overwhelming majority of those arrested are male. Overall, robbery patterns appear to cluster by times, days and locations—for instance, robberies often occur on weekends and at night. For some groups, however, peak robbery times vary with their routine activity patterns. For instance, most elderly people run errands early in the day. Accordingly, offenders usually rob older people in the morning and early afternoons. By contrast, offenders are more likely to rob youths between 3 p.m. and 6 p.m. This timeframe aligns with school dismissal, when students routinely go home or elsewhere. MVT and general theft are crimes of</p>

	<p>Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i></p>	<p>A lack of resources and poverty contribute to the problems. Compounding this problem is a large number of single parent families with a breakdown of nuclear family relationships. Dual income households, close to the poverty line, suffer from similar disconnection as parents occupied with work or exhausted by it perform inconsistently the modeling behavior shown to be critical in the upbringing of youth with greater impulse control and empathy. Although the main contributor to the problem is generational gang conflicts. This gun violence can also be contributed to a number of community members many of whom are already known to the judicial system and who are also among the most likely offenders of repeated gun violence. Added to the mix is the rise in mental health issues amongst the population at large, there is a small but unstable component to the community that is willing and possess the means to drive crime up in the whole area.</p>				
<p style="writing-mode: vertical-rl; transform: rotate(180deg);">Response</p>	<p>Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i></p>	<p><i>Non-enforcement response (required):</i></p> <p>The 004th District Community Policing team will increase awareness of the problem by historic means of flyers, prayer vigils, community engagement, listening sessions, direct advocacy and intervention. They will continue to act as liaison between the community and the patrol and enforcement in the 004th District. The DCO Team will focus their intervention by engaging with information from the alderperson, local businesses, and peer-to-peer conflict resolution as well as increasing access to private security cameras. Community engagement especially through Block Clubs and Community groups are pivotal to success of the intelligence used for field units to deploy. Phone trees are an effective tool for information and awareness. The youth component of the robbery aspect of the problem should not be overlooked. Outreach at the local schools and encouragement to the linkages provide by the CAPS office in the form of Job Fairs and Resource access to higher education and trade schools.</p>				
		<p><i>Enforcement response (if applicable):</i></p> <p>At the planning stage, regarding enforcement and prevention, focusing on retaliatory incidents can impact violence; the 004th District currently identifies disputes, but the responses, and tracking of such responses, have been challenging. Disputes can vary by reason (i.e., what is causing the problem), and the type of people who are involved (e.g., gangs, neighbors, family members, etc.), requiring unique and varied responses for each dispute. However, intervening in these types of incidents can prevent smaller and sometimes trivial issues from escalating into violence and retaliation back and forth. Enforcement strategies include 004th District Tactical teams running directed missions during the identified peak times. The identified watches will determine the window of time and location when shooting incidents occur on their watch. Request assistance from Community Safety Teams to address spikes in violence. Officers assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of violence can be quickly reviewed, and verified information can be dispatched to the patrol vehicles in real time. The 004th District Intelligence Officer will collaborate will utilize their resources to develop intelligence for better "real time" deployment as well as responding to incidents where they can develop and</p>

Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i>	Reinvigorating communities is essential if we are to deter crime and create more vital neighborhoods. In some communities, it will take time to break down barriers of apathy and mistrust so that meaningful partnerships can be forged. Trust is the value that underlies and links the components of community partnership and problem solving. A foundation of trust will allow 004th District Officers to form close relationships with the community that will produce solid achievements. Without trust between police and citizens, effective policing is impossible.	
	Individually, community partners make small but meaningful contributions, but as a united front, these individuals working alongside the 004th District officers can make a significant impact on the lives of children, youth and members of the community exposed to gun violence in their homes as well as at their schools and in their communities.	
	This approach is targeted to engender a community that is ready to be active partners with the police by interacting with one another for strengthening the community and to empower themselves to alert the police of the indispensable information that we get not only from calls, but passed on through DIOs, DCOs, and the CAPS team.

PROBLEM SOLVING PRIORITY #3

Scanning	Priority Title	Public Violence - Robberies & Shootings

	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input checked="" type="checkbox"/> Crime Data	<input checked="" type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings	<input type="checkbox"/> Other: 004 Field Units
Analysis	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>A longitudinal analysis of 004th District crime data (YTD, Year-Over-Year, 2024: Quarter-by-Quarter) indicated that over the 2024 calendar year, the listed boundaries have incurred a 111% increase in Public Violence, breaking down to a 228% increase in Agg. Batt. incidents, a 56% increase in Robbery incidents, and an increase of 32% Agg. Assault. In addition, compared to 2023, Calls for service were up over 300 calls. These increases persist in an environment where index crimes in 2024 have trended dramatically downward at the time of this report most notably: Homicides are down 31%(citywide 8.6%), Shootings 11%(5.8%) and Armed Robberies 43%(32%) This area of the 004th District is a historically difficult area to suppress crime.</p> <p>To complicate matters, there is an ongoing high threat gang conflict (GC-A2-004-018) involving the Pocket Town, Gangster Disciples and the 79th & Essex Black P-Stones and a High Level Gang Conflict (GC-A2-004-001) Between the Lakeside GD and the Terror Town, BPS</p>			
		<p>1. <i>Who is / are the victim(s)?</i></p> <p>As with the first two priorities, the true victims are the community members living in the area that constantly feel unsafe due to the amount of robbery incidents and violent crimes plaguing this community. Small business owners, suffer financially from income instability and lost revenue as patron's fear coming to the area at what once were peak times of day. The lack of financial, especially commercial, reinvestment in the community over the last 40 years in the climate of gang, drug, robbery issues keeps the area from thriving. Every business that is victimized the community twice because of how important the existing business are to their patron.</p> <p>Children and youth living in these violent neighborhoods either feel at risk or emboldened; without non-violent conflict-resolution skills, they too readily depend on guns to solve problems. Exposure to gun violence increases the likelihood that they will use violence as a means of resolving problems, instead of through effective communication. Attraction to a "gangster" lifestyle is pervasive amongst youth, who indicate feelings of diminished options and opportunities relative to their socio-economic status. The impact of violent crime will have long-term adverse effects on community well-being. This violence—in its many forms—affects every segment of the Community regardless of age, ethnicity, race, or other demographic categories</p> <p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>An extensive, yet loose network of criminals, participate in the open air drug markets on several blocks in the area. The mindset of dealer and addict operate in concert, leaving both to move about the area in search of opportunities for short term gain through intimidation, robbery, theft, and burglary. These actions and behaviors foster and exacerbate personal and historical gang violence.</p>			

Community-Driven Approaches to Crime Reduction - District Strategic Plan

CHICAGO POLICE DEPARTMENT

	<p>Firearms are in large supply for protection of drug sales areas, personal protection, vengeance and robbery.</p> <p>Flight in vehicles due to the proximity to lakeshore drive and the skyway is made easier than in areas further away from such major arterial thoroughfares. A large portion of the area's criminal element walk about the neighborhood, at the ready to mask or distract the field units allowing offender's fleeing on foot to make good their escape. This, coupled with the residential flats being court-way apartment buildings, allow for offender to get into the propped door or iron gate of a multi-door, multi-floor area, each with a potentially sympathetic individual willing to give cover to a fleeing offender.</p>

<p>Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i></p>	<p>A lack of resources and poverty contribute to the problems. Compounding this problem is a large number of single parent families with a breakdown of nuclear family relationships. Dual income households, close to the poverty line, suffer from similar disconnection as parents occupied with work or exhausted by it perform inconsistently the modeling behavior shown to be critical in the upbringing of youth with greater impulse control and empathy. Although the main contributor to the problem is generational gang conflicts. This gun violence can also be contributed to a number of community members many of whom are already known to the judicial system and who are also among the most likely offenders of repeated gun violence. Added to the mix is the rise in mental health issues amongst the population at large, there is a small but unstable component to the community that is willing and possess the means to drive crime up in the whole area.</p> <p>An increase in community partnership and engagement that would aide in the identification and prosecution of these malignant elements of the area. Many of the non-violent offenders suffer from mental illness and addiction. A push to promote civic resources in counseling and treatment for these issues. Job programs for young adults may divert individuals from crime as a means of financial support.</p>			
<p>Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i></p>	<p><i>Non-enforcement response (required):</i></p> <p>The 004th District Community Policing team will increase awareness of the problem by historic means of flyers, prayer vigils, community engagement, listening sessions, direct advocacy and intervention. They will continue to act as liaison between the community and the patrol and enforcement in the 004th District. The DCO Team will focus their intervention by engaging with information from the alderperson, local businesses, and peer-to-peer conflict resolution as well as increasing access to private security cameras. Community engagement especially through Block Clubs and Community groups are pivotal to success of the intelligence used for field units to deploy. Phone trees are an effective tool for information and awareness. The youth component of the robbery aspect of the problem should not be overlooked. Outreach at the local schools and encouragement to the linkages provide by the CAPS office in the form of Job Fairs and Resource access to higher education and trade schools.</p> <p><i>Enforcement response (if applicable):</i></p> <p>At the planning stage, regarding enforcement and prevention, focusing on retaliatory incidents can impact violence; the 004th District currently identifies disputes, but the responses, and tracking of</p>

	<p>such responses, have been challenging. Disputes can vary by reason (i.e., what is causing the problem), and the type of people who are involved (e.g., gangs, neighbors, family members, etc.), requiring unique and varied responses for each dispute. However, intervening in these types of incidents can prevent smaller and sometimes trivial issues from escalating into violence and retaliation back and forth. Enforcement strategies include 004th District Tactical teams running directed missions during the identified peak times. The identified watches will determine the window of time and location when shooting incidents occur on their watch. Request assistance from Community Safety Teams to address spikes in violence. Officers assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of violence can be quickly reviewed, and verified information can be dispatched to the patrol vehicles in real time. 004th District Intelligence Officer will collaborate will utilize their resources to develop intelligence for better "real time" deployment as well as responding to incidents where they can develop and increase their network. Cars equipped with LPR cameras will identify "Hot" plates for increased action on the vehicles involved in robbery and theft.</p>		
<p>Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i></p>	<p>By employing deflection tactics (custom notifications), environmental tactics (vacant lot clean-up, fencing and lighting) and enforcement tactics (tact teams, beat integrity and outside assistance from community safety teams) the 004th District will attack the root cause on multiple fronts.</p>

COMMUNITY ENGAGEMENT PRIORITIES					
<p>Domestic Violence</p> <p>High Priority Engagement Activities</p> <p>List at least one (no more than 3)</p>	<p>Priority #1: Describe the engagement</p> <p>To continue to build the Domestic Violence Subcommittee and host pop up resource tables throughout the district in order to offer resources to the domestic violence victims of the 004th District.</p>	<p>Select only one; if co-created a partner must be listed</p> <p><input checked="" type="checkbox"/> CPD-Driven</p> <p><input type="checkbox"/> Community-Driven</p> <p><input type="checkbox"/> Co-Created with _____</p>	<p>Why is this engagement activity a high priority for the District?</p> <p>The 004th District receives a high number of domestic violence calls. However, not all victims of domestic violence make police reports so pop up events at corners throughout the district are important to help get resources in the hands of victims that we may not even be aware are victims of DV</p>	<p>What role will non-Community Policing Personnel (Watch, Tactical/Specialized Units, etc) play in the engagement?</p> <p>The Watch Personnel will be responsible for being aware of resources available to domestic violence victims, as well as providing victims with a DIN and explaining it while on scene. The DVLO, DVLO alternate, as well as members of the DV subcommittee will provide officers on the watches with DV information and resources within the 004th district at roll calls.</p>	
	<p>Who is the District Point of Contact for this engagement?</p> <p>P.O. Meghan O'Shaughnessy -DVLO</p>		<p>Why was this individual selected as the Point of Contact for this engagement?</p> <p>The listed officer was appointed as the Domestic Violence Liaison Officer.</p>		
	<p>Priority #2: Describe the engagement</p> <p>To continue to provide follow up phone calls and resource mailers to the domestic violence victims who make reports in the 004th districts. To assist Family Rescue in making contact with high risk victims through the DVA process.</p>	<p>Select only one; if co-created a partner must be listed</p> <p><input checked="" type="checkbox"/> CPD-Driven</p> <p><input type="checkbox"/> Community-Driven</p> <p><input type="checkbox"/> Co-Created with _____</p>	<p>Why is this engagement activity a high priority for the District?</p> <p>The 004th District receives a high number of domestic violence calls. Therefore, it is important to follow up by phone calls and mailers to ensure that victims who report domestic violence are aware of the resources that are available to them, such as legal advocates.</p>	<p>What role will non-Community Policing Personnel (Watch, Tactical/Specialized Units, etc) play in the engagement?</p> <p>The Watch Personnel will be responsible for being aware of resources available to domestic violence victims, as well as providing victims with a DIN and explaining it while on scene. Officers will also be reminded to be sure to complete the DVA for victims, as well as to document correct phone numbers and addresses in reports so that contact with victims by DVLO can be made.</p>

	<p>Priority #3: Describe the engagement</p> <p>To continue to work with the schools within the 004th district to provide information and resources to the youth experiencing domestic violence, whether they are victims of DV or witnesses of DV within their home.</p>	<p>Select only one; if co-created a partner must be listed</p> <p><input checked="" type="checkbox"/> CPD-Driven</p> <p><input type="checkbox"/> Community-Driven</p> <p><input type="checkbox"/> Co-Created with _____</p>	<p>Why is this engagement activity a high priority for the District?</p> <p>The 004th District receives a high number of domestic violence and child abuse calls. Many domestic violence reports made, list children as either victims or witnesses. Therefore, it is important to reach out to the youth with resources available to them.</p>	<p>What role will non-Community Policing Personnel (Watch, Tactical/Specialized Units, etc) play in the engagement?</p> <p>The Watch Personnel will be responsible for being aware of domestic violence resources available to youth. The DVLO, DVLO alternate, as well as members of the DV subcommittee will provide officers on the watches with DV information and resources at roll calls. Officers will also be reminded to make proper notifications to DCFS and take youth victims into protective custody when necessary.</p>
