District

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. **Please ensure responses are specific and detailed.**

PROBLEM SOLVING PRIORITY #1

Scanning	Priority Title	Shooting Incidents		
	Priority Type	<input checked="" type="checkbox"/> Violent Crime		<input type="checkbox"/> Property Crime
	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings
		<input checked="" type="checkbox"/> Crime Data	<input checked="" type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings
Analysis	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>During the 2021 calendar year, the listed boundaries have totaled 10 Aggravated Battery/Homicide incidents. This represents a 150% increase from the 2020 calendar year where there were 4 reported such incidents. In addition, there are 110 documented ShotSpotter incidents compared to 56 the previous year representing a 96.4% increase.</p> <p>To complex the issue, there is an ongoing licensing violation occurring at a business located within these boundaries. Because of this, there has been an increase in quality of life related incidents.</p>		
	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. <i>Who is / are the victim(s)?</i></p> <p>The true victims are the citizens living in the area that constantly feel unsafe due to the amount of shooting incidents plaguing this community. Business owners suffer financially as patrons fear coming to the area, thus hurting their business. There has been a trend in which victims have used social media platforms while calling for acts of violence to take place upon the offenders. Common reactions to this increase in shootings have led the residents/victims to face shock, fear, anger, helplessness, disbelief and possibly guilt. As mentioned previously, some of these reactions may reoccur at a later stage as well, for example when attending a trial or going to hospital for medical treatment. The argument could be made that these victims need mentoring, religion, and structure in their lives due in large part to the uptick in shootings.</p>		
		<p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Offenders normally approach on foot after exiting a vehicle while wearing dark colored clothing. Offenders have been found to conceal their identity by covering their faces. Offenders in the majority of cases flee via vehicles using Stony Island to exit the District. On several occasions they have used the alleys and side streets as their avenue of escape.</p>		
		<p>3. <i>What is the location of this problematic activity? Use street names to delineate the boundaries below:</i></p> <ul style="list-style-type: none"> • Eastern Boundary: East End • Western Boundary: Harper • Northern Boundary: 8900 • Southern Boundary: 9359

	<p>Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i></p> <p>A lack of resources and poverty contribute to the problems. Compounding this problem is a large number of single parent families with a breakdown of nuclear family relationships. Although the main contributor to the problem is generational gang conflicts. The current root cause stems from an ongoing multi-district gang conflict between the 004th, 005th and 006th Districts. This conflict involves the Gangster Disciples - Flip Side faction in the 004th District, the Gangster Disciples - 98th Greenwood faction in the 005th District and Gangster Disciples - Burnside faction in the 006th District.</p>											
<p>Response</p>	<p>Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i></p> <p><i>Non-enforcement response (required):</i> The 004th District is going to work with the Office of Operations to request custom notifications for the known gang members in the affected area. Additionally, the 004th Abandoned Policing Officers will identify vacant lots and collaborate with city services to get the areas cleaned up as well as fenced in. Confirm that 311 requests are done to ensure all public lighting in the area are fixed.</p> <p><i>Enforcement response (if applicable):</i> 004th District Tactical teams will run directed missions during the identified peak times. The identified watches will determine the window of time when shooting incidents occur on their watch. Request assistance from Community Safety Teams to address spikes in violence. Assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of violence can be quickly reviewed, and verified information can be dispatched to the patrol vehicles in real time. The 004th District Intelligence Officer will collaborate with their counterparts in these Districts to ensure a fluid exchange of updated information.</p>											
	<p>Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i></p> <p>By employing deflection tactics (custom notifications), environmental tactics (vacant lot clean-up, fencing and lighting) and enforcement tactics (tact teams, beat integrity and outside assistance from community safety teams) the 004th District will attack the root cause on multiple fronts.</p>

		Local Business Owners	Communicate with local businesses to enroll new members into the Criminal Trespass Affidavit Program and gain the cooperation to access their video surveillance systems.			
Assessment Plan	Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i>	<p>One way to take crime out of the community is through a neighborhood watch group. These volunteers within the community will look for and report suspicious activity to the 004th District. Watch groups provide the neighborhood with a See Something/Say Something environment when police aren't around, which can effectively reduce the number of opportunities for crime.</p> <p>Another way to reduce the risk of crime is by investing in their neighborhood's curb appeal. The physical environment of this neighborhood can play a role in a criminal's risk assessment. Areas having homes and businesses with overgrown landscapes, vandalized buildings, trash, abandoned vehicles, etc. have higher crime rates than those that are well-maintained. Criminals perceive these areas as vulnerable with a low risk of being patrolled or responded to by police.</p> <p>We are asking the homeowners of the community to be vigilant and diligent about their home care and maintenance needs. To handle their garbage responsibly, participate in community efforts, and encouraging others to avoid littering. A simple change of habits and a little effort from all homeowners can lead to a substantial platform of well-organized and prideful residents taking ownership of their community.</p>				
	Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Then, list any other quantitative and qualitative outcomes that you will use to track progress.</i>	<p><i>Focus Metric (refer to the District Guidance Document for a list of aligned metrics):</i></p> <p>Decrease in the amount of documented/reported aggravated batteries.</p> <p><i>Additional Metrics:</i></p> <p>Decrease in the amount of calls for service related to shots fired. Decrease in the amount of reported ShotSpotter incidents.</p>

<i>ensure that the Response Strategy is having the desired impact</i>	<p><i>How frequently will District personnel follow-up to ensure the Response Strategy is having the desired impact?</i></p> <p>In order to analyze the strategies being instituted to combat these crime issues a number of factors will have an unintended effect. Weather is an obvious factor in deterring crime. Additionally, acts of civil unrest and redeployment of officers will also have repercussions. In order to have a clearer picture into whether or not our strategies are in fact working, a period of 4-6 months would be optimal. Seeing a continued and sustained decrease in the amount of documented incidents would ensure our strategies are working.</p>
<p>Mitigation Criteria</p> <p><i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i></p>	<p>The problem will be addressed when we see a significant decline not only in the amount of calls for service but in the amount of documented incidents. Although we must keep in mind that success can only be obtained if the documented strategies continue to work and show steady decline. Otherwise, independent variables could be responsible for a momentary decline.</p>

In addition, there are 417 documented ShotSpotter incidents compared to 294 the previous year representing a 41.8% increase.</p> <p>To complex the issue, the gang conflict driving these shootings stems from Chicago Vocational High School servicing students throughout our 3 sectors in the 004th District which encompasses multiple conflicting gang factions.</p>			
	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>4. <i>Who is / are the victim(s)?</i></p> <p>Children are particularly impacted by the intersection of gun violence and gang activity. Exposure to gun violence has an impact on children's and teens' psychological and mental well-being and affects their school performance, among other factors. When neighborhoods and schools are not safe from gun violence, entire generations of children are affected. All incidents of gun violence in schools, regardless of their intent or victim count, compromise the safety of students and staff.</p> <p>Additionally, the true victims are the citizens living in the area that constantly feel unsafe due to the amount of shooting incidents plaguing this community. PROBLEM SOLVING PRIORITY #3

Scanning	Priority Title	Quality of Life – Loitering and Disturbances			
	Priority Type	<input type="checkbox"/> Violent Crime		<input type="checkbox"/> Property Crime	
	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input type="checkbox"/> Crime Data	<input checked="" type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings	<input type="checkbox"/> Other: _____
	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>Although we addressed Quality of Life concerns between these same boundaries in the 2021 District Strategic Plan, showing a decline in several categories, we feel we can still improve on those numbers. Calls for service related to Disturbance complaints declined by 23% but Quality of Life complaints rose slightly from 700 in 2020 to 762 in 2021.</p> <p>Loiterers can deter customers, especially in a neighborhood with high levels of homelessness and panhandling. Businesses are struggling to combat loitering, as most have limited means to remove loiterers who aren't asking potential customers for money. Customers might approach a business but be turned off by the appearance or behavior of loiterers who are nearby. Traffic to an area may wane as word gets around about people loitering there. Customers hanging around in stores without active buying behavior sometimes cause security concerns, forcing employees to focus on watching them to ensure they don't steal. Some businesses have to deal with groups loitering outside their stores that can lead to heightened instances of vandalism, fighting and disturbances that cause exterior security threats.</p>			
Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>7. <i>Who is / are the victim(s)?</i></p> <p>Residents of the community and business owners often collaborate to try to minimize loitering because of the negative effects it can have on businesses and the communities where they operate. Loiterers drive visitors, tenants, and vendors away from businesses thereby affecting revenue. Customers and residents of the community become alarmed when they see someone lying around or standing in front of a business, they may not feel safe or comfortable entering. They don't know whether the person is dangerous.</p>			
		<p>8. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Individuals or groups hang around the outside or interior of a business without any intent to patronize the store directly affecting profits. Customers might approach a business but be turned off by the appearance or behavior of loiterers who are nearby. Traffic to an area may wane as word gets around about people loitering there. Customers hanging around in stores without active buying behavior sometimes cause security concerns, forcing employees to focus on watching them to ensure they don't steal. Some businesses have to deal with groups loitering outside their stores that can lead to heightened instances of vandalism, fighting and disturbances that cause exterior security threats. Generally, they are there to panhandle whether that is passively or aggressively. Although passive panhandling, soliciting without threat or menace, often without any words exchanged at all—can create a nuisance, aggressive panhandling, with actual or implied threats, is more worrisome. If a panhandler uses physical force or extremely aggressive actions, the panhandling may constitute robbery.</p>

		9. What is the location of this criminal activity? Use street names to delineate the boundaries below:			
		<ul style="list-style-type: none"> • Eastern Boundary: Baltimore • Western Boundary: Exchange • Northern Boundary: 8300 • Southern Boundary: 9300 			
	Root Cause Analysis Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.	A lack of resources and poverty contribute to the problems. Compounding this problem is a large number of single parent families with a breakdown of nuclear family relationships. Known locations of narcotics sales in those areas also play a significant role in loitering and violence			
Response	Response Strategy Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.	Non-enforcement response (required): The 004 th Abandoned Policing Officers will identify vacant lots and collaborate with city services to get the areas cleaned up as well as fenced in. Confirm that 311 requests are done to ensure all public lighting in the area are fixed. Work with the Aldermanic offices within the priority boundaries for assistance in expediting those City services and agencies required to clean up and repair.			
		Enforcement response (if applicable): 004 th District Tactical teams will run directed missions during the identified peak times. The identified watches will determine the window of time when businesses are operational and loitering and disturbances are most likely to occur. Request assistance from Community Safety Teams to address spikes in large crowd gatherings. Assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of loitering and disturbances can be quickly reviewed, and verified information can be dispatched to the patrol vehicles in real time.			
	Root Cause Mitigation Explain how the Response Strategy directly addresses the root cause that was analyzed above.	By employing deflection tactics (custom notifications), environmental tactics (vacant lot clean-up, fencing and lighting) and enforcement tactics (tact teams, beat integrity and outside assistance from community safety teams) the 004 th District will attack the root cause on multiple fronts.

	Local Businesses	Communicate with local businesses to enroll new members into the Criminal Trespass Affidavit Program and gain the cooperation to access their video surveillance systems.	
Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i>	<p>One way to take crime out of the community is through a neighborhood watch group. These volunteers within the community will look for and report suspicious activity to the 004th District. Watch groups provide the neighborhood with a See Something/Say Something environment when police aren't around, which can effectively reduce the number of opportunities for crime.</p> <p>Another way to reduce the risk of crime is by investing in their neighborhood's curb appeal. The physical environment of this neighborhood can play a role in a criminal's risk assessment. Areas having homes and businesses with overgrown landscapes, vandalized buildings, trash, abandoned vehicles, etc. have higher crime rates than those that are well-maintained. Criminals perceive these areas as vulnerable with a low risk of being patrolled or responded to by police.</p> <p>We are asking the homeowners of the community to be vigilant and diligent about their home care and maintenance needs. To handle their garbage responsibly, participate in community efforts, and encouraging others to avoid littering. A simple change of habits and a little effort from all homeowners can lead to a substantial platform of well-organized and prideful residents taking ownership of their community.</p>

Assessment Plan	Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Then, list any other quantitative and qualitative outcomes that you will use to track progress.</i>	<i>Focus Metric (refer to the District Guidance Document for a list of aligned metrics):</i> Decrease in the amount of calls for service related to loitering. Decrease in the amount of calls related to disturbances. Decrease in the amount of documented/reported trespassing incidents. <i>Additional Metrics:</i> Response from business owners at Business Sub-Committee Meetings.		
	Follow-Up Plan <i>Explain how the District will follow-up to ensure that the Response Strategy is having the desired impact</i>	<i>Over what time horizon will the Response Strategy be implemented? (select one)</i>	<input checked="" type="checkbox"/> 1 to 3 months	<input type="checkbox"/> 4 to 6 months <input type="checkbox"/> More than 6 months
	<i>How frequently will District personnel follow-up to ensure the Response Strategy is having the desired impact?</i> In order to analyze the strategies being instituted to combat these crime issues a number of factors will have an unintended effect. Weather is an obvious factor in deterring crime. Additionally, acts of civil unrest and redeployment of officers will also have repercussions. In order to have a clearer picture into whether or not our strategies are in fact working, a period of 4-6 months would be optimal. Seeing a continued and sustained decrease in the amount of documented incidents would ensure our strategies are working.			
	Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i>	The problem will be addressed when we see a significant decline not only in the amount of calls for service but in the amount of documented incidents. Although we must keep in mind that success can only be obtained if the documented strategies continue to work and show steady decline. Otherwise, independent variables could be responsible for a momentary decline.
