008th District

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. **Please ensure responses are specific and detailed.**

PROBLEM SOLVING PRIORITY #1				
Scanning	Priority Title	Drag Racing/Reckless Driving		
	Priority Type	<input checked="" type="checkbox"/> Violent Crime	<input type="checkbox"/> Property Crime	<input checked="" type="checkbox"/> Quality of Life
	Source	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings
	<i>Check all that apply</i>	<input checked="" type="checkbox"/> Crime Data	<input type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings
	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<ul style="list-style-type: none"> Beginning in early Spring of 2021, groups of car clubs would gather in the parking lot of Ford City Mall. As this trend gained in popularity, car clubs from other parts of the city and suburbs began to travel along the Stevenson Expressway, into the 8th District to join the group. This created a massive increase in calls related to drag racing and reckless driving along Pulaski Road from 155 to 87th Street. In 2021 there were 147 calls for service for reckless driving along Pulaski Rd. Compared to last year, there were 112 call, which is an increase of 31% In 2021 there were 137 calls for service for drag racing along Pulaski Rd. Compared to last year, there were 49, which is an increase of 180%. This issue was a main topic of concern at recent beat meetings as well as our 1st Community Conversation. 		
Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. Who is / are the victim(s)?</p> <ul style="list-style-type: none"> The reckless driving and drag racers create a very dangerous environment for other motorists as well as pedestrians crossing the street. The traffic congestion along Pulaski Rd causes the offending drivers to disobey traffic signals as well as cross into on-coming traffic. Travelling at high speeds can cause fatal traffic crashes. 		
		<p>2. Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</p> <ul style="list-style-type: none"> In most cases, the offenders are driving recklessly from the Stevenson Expressway to Ford City Mall via Pulaski Rd. The drivers will communicate through various social media platforms to decide where and when to meet. As the groups travel from one location to the next, they will drive in dangerous manner while disregarding traffic signals and placing pedestrians and motorists in danger of being struck.

When the community observes multiple agencies and community groups working together for a common goal, the members of that community will engage in a positive way to help in any way they can. 			
	<p>Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Since there was such a dramatic increase in calls for service for reckless driving and drag racing (+76%) in the target area from 2020 to 2021, the overall goal will be to see a large decrease in related calls for service during 2022. The issue will be addressed when we see a consistent decrease over a long period. In order to truly determine whether this priority has been addressed, we will have to gauge the community that resides and works in the affected area. By attending community meetings and events and monitoring social media posts, we will truly be able to determine if community members feel comfortable living and working in the neighborhood without fear of becoming a victim.

This will allow them to remove several converters in a very short period of time.
