

Community-Driven Approaches to Crime Reduction - District Strategic Plan

CHICAGO POLICE DEPARTMENT

District: 015

Year: 2024

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. **Please ensure responses are specific and detailed.**

PROBLEM SOLVING PRIORITY #1

Scanning	Priority Title	Gun Violence (Shootings)			
	Priority Type	<input checked="" type="checkbox"/> Violent Crime		<input type="checkbox"/> Property Crime	
	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input checked="" type="checkbox"/> Crime Data	<input checked="" type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings	<input type="checkbox"/> Other: _____
Analysis	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>From 30 Oct 2022 to 30 Oct 2023, Aggravated Batteries with a firearm and Homicides accounted for the majority of violent incidents within the 015th District. The district has seen a 17% increase combined with 47% decrease from previous year 2021 for a total of 30% reduction in Homicides since 2020. Overall, we have seen a 43% decrease in Aggravated Batteries from the previous year along with a 23% increase for a total of a 20% reduction in Aggravated Batteries since 2020.</p> <p>Beat 1533 has reported 10 homicides and 1532 reported 7 homicides for an increase in homicides and aggravated batteries from last year but an overall reduction from 2020.</p> <p>Please note last year was an astounding year in crime reduction, if we did a 3-year comparison we would still be trending down in crime overall.</p> <p>Beat 1532 had an increase in 1 Homicide and an increase of 9 Aggravated Battery incidents. Beat 1533 showed an increase in 7 Homicides and an increase of 10 Aggravated Battery incidents.</p>			
	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. Who is / are the victim(s)?</p> <p>The victims are gang members from various gang factions operating within the 015th District. Victims have also been youth ages 14-17 and young adults 18-35. These victims have been offenders of violent crime and in return have succumbed to being victims of violent crime.</p>			
		<p>2. Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</p> <p>The offenders' motives are driven by drug sales and gang retaliation. The members of these different gang factions use semi-automatic weapons to commit these crimes. The offenders usually flee by vehicles that are most often the product of a vehicle theft or vehicular high jacking when found.</p>

		<p>3. What is the location of this problematic activity? Use street names to delineate the boundaries below:</p> <ul style="list-style-type: none"> • Eastern Boundary: Cicero Avenue (4800 West) • Western Boundary: Long Avenue (5400 West) • Northern Boundary: Race Avenue (526 North) • Southern Boundary: Van Buren (400 South) 		
	<p>Root Cause Analysis Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</p>	<p>Gang Internal Conflict/Violence Open-Air Narcotic Sales/Territory</p>		
Response	<p>Response Strategy Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</p>	<p><i>Non-enforcement response (required):</i></p> <p>Implementing prayer walks with our faith-based partners and offering more job fairs and employment opportunities with our workforce readiness agencies have aided in given more opportunities to our young male residents. We have also continued to utilize the Austin Response Team (ART) partners as a proactive measure to address potential areas of gang conflict and a reactive measure to areas which have reported shooting incidents by conducting canvasses while providing the necessary resources to deter crime and critical incidents from occurring proves to be a phenomenal addition to the 015th District.</p>		
		<p><i>Enforcement response (if applicable):</i></p> <p>The Strategic Decision Support Center (SDSC) has aided in being able to secure and identify offenders of violent crime by utilizing open-source social media such as "Triller" and YouTube. By being attentive to cameras and paying close attention to crime patterns the (SDSC) officers have been able to close open cases. The (SDSC) officers have utilized confidential informants from relationships that have made by taking tit to the streets in community partnership and utilized these informants for vital information in securing offenders. The 015th District Community Policing Office has been instrumental in assuring city service requests are submitted and completed, such as Streets & Sanitation and Forestry to assist in removing trees and small branches that affect the obstruction of POD cameras.</p>		
	<p>Root Cause Mitigation Explain how the Response Strategy directly addresses the root cause that was analyzed above.</p>	<p>There are gang conflicts throughout the 015th District most of the crime has developed through internal conflict within the various gang factions within the 015th District. Note, other gang conflicts exist that carry over from the 11th district border at Cicero and the 25th district border at Division. The conflicts are over narcotics sales, currency, and gang territory. The offenders are arming themselves with assault rifle style weapons while soliciting the sale of narcotics and as a result homicides have increased. These military grade weapons have been viewed on SDSC room cameras and been captured on still images being used in the commission of Robberies. We will utilize the Austin Response Team (ART) and allow them to intervene when the gang conflict arises to mitigate retaliation and try to solve the issues before any violent crime occurs. Utilizing the (SDSC) room to be proactive instead of reactive when a known gang conflict is presented and keeping a close eye for any large gatherings in areas of suspected retaliation. Continued efforts with community partners to aid offenders secure legal employment in an effort to end narcotic sales.</p>

They will be changed according to the need of the community and the analytical data.</p>
<p>Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i></p>		<p>We will concur the problem has been addressed when the focus metric numbers for shootings decreases for the entire district. This progress will prove when a decreased number of shootings and homicides will be noticeable to the community. The residents should be able to voice and acknowledge the reduction of crime during beat meetings and community conversations.</p>

	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>Narcotic Loitering calls for service have shown an increase of 7% in 015th District as a whole. Narcotic sales lead to gun violence and other crimes so continuing to increase the number of calls that can lead to an increase in number of narcotic related arrest will be a top priority going into 2024. Narcotic Loitering calls for service have shown a 4% increase within the boundary area and we inspect it to increase as we continue to get the community involved in reporting criminal activity, continue building relationships with community residents, and restore trust for the police.</p>			
Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>4. Who is / are the victim(s)?</p> <p>The victims are community residents who are intimidated by gang members and fear retaliation from the individuals engaging in narcotic sales. The business owners and staff whose establishments are often threatened because they are unable to get these known individuals off their property.</p>

		<p>5. Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</p> <p>Narcotic sales and those engaging in the sale of narcotics in front of business establishments can deter customers. Businesses are struggling to combat loitering, and to effectively rid narcotic sales within their establishments. Offenders often hide drugs and guns inside businesses and threaten the lives of the business owners and their families. Those same loiterers have been known to vandalize businesses and utilize vehicle parked on business lots to conduct drug transactions as well.</p> <table border="1" data-bbox="407 716 1549 785"> <tr> <td>Typical Time of Day (select all that apply):</td> <td><input checked="" type="checkbox"/> 1st Watch</td> <td><input checked="" type="checkbox"/> 2nd Watch</td> <td><input checked="" type="checkbox"/> 3rd Watch</td> </tr> </table> <p>6. 	<p>Root Cause Analysis Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</p>	<p>The narcotic activity occurring is due to the offenders having the advantage of being able to conduct illegal narcotic sales on the street at all times of the day and night. Offenders target property locations that are abandoned, vacant lots, and high traffic businesses, such as gas stations. The offenders take over private locations to conduct, sell and hide narcotics. The gang conflicts over this narcotic territory often leads to violent crime.</p>				
<p>Response</p>	<p>Response Strategy Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</p>	<p><i>Non-enforcement response (required):</i></p> <p>The 015th District will work collectively with Bureau of Patrol to request and serve intervention connections formerly known as custom notifications for known gang members who are involved with the narcotic sales and criminal activity. In addition, the 15th District Community Policing Office, along with the Troubled Building Officer, will identify problematic vacant lots that are being utilized to hide and sell narcotics and complete city service requests. The Office of Community Policing will request bulk clean up and securement of the abandon buildings to deter criminal activity. The (SDSC) will also be keeping a close eye on gang leaders and referring said offenders to the interventions connection program.</p> <p><i>Enforcement response (if applicable):</i></p> <p>015th District Gang/Tactical Unit will conduct surveillance utilizing the POD cameras. The narcotic unit will conduct related missions that will target affected locations, with buyers, lookouts, and sellers. The SDSC room will be recognizing and working in tandem with the Vice Unit to identify and prosecute gang members involved in narcotic sales.</p>

Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i>	The non-enforcement and enforcement response strategy will work in a collaborative effort to address the chronic crime disorder and quality of life issues faced by the residents in 015 th District. By working together to apply transformation tactics (intervention connection), natural tactics (vacant lot bulk clean up) and enforcement tactics (gang/tactical narcotic missions, beat personnel, and assistance from outside specialized units).

Increasing foot patrol with the residents and business owners who are affected by narcotic sales in an effort to take back the streets from the loiterers and return it to active members of the community. Partnering with community organizations to increase community outreach efforts focusing specifically on rehabilitating Offenders who were arrested previously for selling narcotics and being able to offer them employment. The overall goal is to aid the community by decreasing the number of narcotic sale territories. Involving the community provides them with a sense of ownership, so as the community improves those members that were proactive feel part of the solution that improved the conditions of their community. Building working relationships with patrol officers, CAPS officers, and the DCO team will aid in a collaborative effort to reduce crime overall.</p>

	Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i>	When the focus metric numbers decrease and the number for narcotic arrests and service calls for narcotic sales for the entire district decrease this should be visible in data. These decreases should also be noticeable to the community and residents should be able to visibly see the reduction of loitering and then voice this change at community meetings, beat meeting, and other forums.

Assessment Plan	Metrics Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Then, list any other quantitative and qualitative outcomes that you will use to track progress.	Focus Metric (refer to the District Guidance Document for a list of aligned metrics): Reduction in the quality of life calls for service in the targeted area and in return making Austin a better place to live. Additional Metrics: Make sure neighborhoods are clean and maintained.			
	Follow-Up Plan Explain how the District will follow-up to ensure that the Response Strategy is having the desired impact	Over what time horizon will the Response Strategy be implemented? (select one)	<input type="checkbox"/> 1 to 3 months	<input type="checkbox"/> 4 to 6 months	<input checked="" type="checkbox"/> More than 6 months
		How frequently will District personnel follow-up to ensure the Response Strategy is having the desired impact? Once a week during the SDSC briefings, the focus and additional metrics will be addressed to measure effectiveness.			
Mitigation Criteria Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.	When the focus metric numbers decrease, and calls for service regarding narcotic sales for the entire district decrease. When homeowners become responsible for securing their abandoned properties and help restore safety measures it should be noticeable to the community and residents should be able to voice the reduction of loitering during community meetings.
