

Community-Driven Approaches to Crime Reduction - District Strategic Plan

CHICAGO POLICE DEPARTMENT

District: 004

Year: 2025

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. Please ensure responses are specific and detailed.

PROBLEM SOLVING PRIORITY #1				
Scanning	Priority Title	Homicides		
	Priority Type	<input checked="" type="checkbox"/> Violent Crime	<input type="checkbox"/> Property Crime	<input checked="" type="checkbox"/> Quality of Life
	Source	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings
	Check all that apply	<input checked="" type="checkbox"/> Crime Data	<input type="checkbox"/> Community Interactions	<input type="checkbox"/> Resident Survey Data
Analysis	Rationale	<p>Analysis of crime data indicated that over the 2024 calendar year, the listed boundaries have incurred a 400% increase in Homicides. Additionally, Aggravated Batteries were up 18.5 %, and 71.4% increase in Shooting Incidents. Community conversations for the effected beats have discussed rapid gunfire with in the proposed mission zone, vice issues and loitering in the retail/business area, general uneasiness with our community policing engaged residents while they go about their day in this area. These issues are co-morbid, co-existing with areas of high violence.</p>		
	Problem Analysis	<p>1. Who is / are the victim(s)?</p> <p>Community Members are victims, having expressed a dissatisfaction with the fear of victimization by violent crime while they go about their day, traveling from their homes to various shops in the retail area. The victim's that directly result from these shooting number greater that the person struck by gunfire, it is the community at large. The Community is further made to suffer when the local businesses are victimized by loss of revenue and closures forcing the local population, many of whom are older adults, to travel further and spend more of their limited income.</p>		
		<p>2. Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</p> <p>These Shooting Incidents persist in and around an important retail corridor and into the residential areas. The targets of these shootings tend to use the adjacent public conveniences and are often followed from the area and back to the residential areas. The would-be offenders move about the area, usually in vehicles, identifying likely and/or specific targets. Geographically, the listed boundaries provide an ease of ingress and egress to those seeking to commit crime. In addition, retail traffic in the area, both foot and vehicular, increases identification of victims by offenders. The proximity to arterial roadways, providing the highest level of mobility and the highest speeds, over the longest uninterrupted distance allows the offending vehicles ready paths of flight. These arterial roadways lead to the Chicago Skyway, Stony Island Ave, 79th St and 75th St, and I-90/94. Because of its proximity on the 004th District's northern border/southern border of 003rd District and differing radio zones, an inconsistency of patrol can arise near the location.</p>

Response		<p>2. What is the location of this problematic activity? Use street names to delineate the boundaries below:</p> <ul style="list-style-type: none"> • Eastern Boundary: S. Blackstone Ave. • Western Boundary: S. Cregier Ave. • Northern Boundary: E. 75th St. • Southern Boundary: E. 79th St. 		
	<p>Root Cause Analysis Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</p>	<p>There is an ongoing internal medium gang conflict (GC-A1-003-018) involving the Sircon City Gangster Disciples. The Boss Pimps faction of the Gangster Disciples are also known to have territory located in this priority zone. Recidivism, alcohol, narcotic sales, and substance abuse are often associated with Gang Conflicts. Shootings that are driven by gang related Rivalries are often in the nature of illicit sales, personal grievances, cross-combatancy, and stray gunfire, many offenders are under the influence of drugs or alcohol when offenses are committed.</p>		
	<p>Response Strategy Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</p>	<p><i>Non-enforcement response (required):</i></p> <p>The 004th District Community Policing team will increase awareness of the problem by historic means of flyers, prayer vigils, community engagement, listening sessions, direct advocacy and intervention. They will continue to act as liaison between the community and the patrol and enforcement in the 004th District. The DCO Team will focus their intervention by engaging with information from the alderperson, local businesses, and peer-to-peer conflict resolution as well as increasing access to private security cameras. Community engagement, especially through Block Clubs and Community groups, are pivotal to success of the intelligence used for field units to deploy. Phone trees are an effective tool for information and awareness. The 004th District will also work with our local business partners and community leaders in planning ways to better secure property owned by said businesses and encourage said partners to upgrade lighting and private cameras where needed. 004th District Tactical teams will run directed missions during the identified peak times.</p> <p><i>Enforcement response (if applicable):</i></p> <p>The 004th District is willing to collaborate with the 003rd District in trying to combat this problem using a joint team effort. The 004th District will monitor cameras accessible to them along with other technology utilized by its SDSC room. The identified watches will determine the peak time and location when shooting incidents / robberies occur on their watch. Request assistance from Community Safety Teams to address spikes in violence. Assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of violence can be quickly reviewed, and verified information can be disseminated to the patrol vehicles in real time. The 004th District Intelligence Officer and SDSC officers will collaborate with their counterparts in these Districts to ensure a fluid exchange of updated information.</p>		
	<p>Root Cause Mitigation Explain how the Response Strategy directly addresses the root cause that was analyzed above.</p>	<p>By employing deflection tactics (custom notifications), environmental tactics (vacant lot clean-up, fencing and lighting), coordination with our business partners within the area and enforcement tactics (tact teams, beat integrity and outside assistance from community safety teams) the 004th District will attack the root cause on multiple fronts.</p>

Provide organization names and outline specific roles/responsibilities.</i>	Local Businesses	Communicate with local businesses to enroll new members into the Criminal Trespass Affidavit Program and gain the cooperation to access their video surveillance systems.				
		Violence Intervention Groups	Work alongside our violence intervention groups to address issues before things get to the point of needing to utilize the criminal justice system. Assist interrupters and invite them to include programs that detach young men from gangs, those which meet with shooting victims in hospitals to deter retaliation and those which offer young men employment and counseling in cognitive-behavioral therapy.				
	Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i>	Reinvigorating communities is essential if we are to deter crime and create more vital neighborhoods. In some communities, it will take time to break down barriers of apathy and mistrust so that meaningful partnerships can be forged. Trust is the value that underlies and links the components of community partnership and problem solving. A foundation of trust will allow 004th District Officers to form close relationships with the community that will produce solid achievements. Without trust between police and citizens, effective policing is impossible. Individually, community partners make small but meaningful contributions, but as a united front, these individuals working alongside the 004th District officers can make a significant impact on the lives of children, youth and members of the community exposed to gun violence in their homes as well as at their schools and in their communities.					
Assessment Plan	Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Then, list any other quantitative and qualitative outcomes that you will use to track progress.</i>	<i>Focus Metric (refer to the District Guidance Document for a list of aligned metrics):</i> A Reduction in the number of shooting incidents in the area will be measured quarterly and compared to previous years. A decrease in Calls for Service in the given area will be examined. <i>Additional Metrics:</i> Public perception is a key indicator in building and reinforcing the partnership between the 004th District and the community. Information garnered from community members at beat meetings and other community engagements on whether or not they are seeing a decrease in violent crime in the listed boundaries.

<p><i>ensure that the Response Strategy is having the desired impact</i></p>	<p><i>How frequently will District personnel follow-up to ensure the Response Strategy is having the desired impact?</i></p> <p>The District commander is given data for the district plan's zones daily. Teleconferencing, in the form of the 004th District Community Meeting, is held weekly with various communities in the 004th District. In a four-week cycle, citizens are able to receive an individual sector briefing and a comprehensive district-wide briefing. Analysis is performed daily and publicly given to the community on a given DSP zone twice a month. Feedback can be given directly to community policing office or at 004inform@chicagopolice.org. Beat officers and Sector Sergeants provide constant feedback to the Watch Operations Lieutenant (WOL) who along with the district commander and district XO set strategies based on current data and deploy resources accordingly.</p>
<p>Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i></p>	<p>The problem will be addressed when we see a significant decline not only in the amount of calls for service but in the amount of documented incidents. Although we must keep in mind that success can only be obtained if the documented strategies continue to work and show steady decline. Otherwise, independent variables could be responsible for a momentary decline.</p>

		<input checked="" type="checkbox"/> Crime Data	<input checked="" type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings	<input checked="" type="checkbox"/> Other: 004 Field Units
Analysis	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	Analysis of crime data indicated that over the 2024 calendar year in the listed boundaries, theft rose by a staggering 65.7%. Additionally, robberies were increased 33.3% with an increase of 4 occurrences after having reduced robberies, in 2023, in the same area by 50% which reflects the concerns voiced by the community at recent 432 beat meetings. Along with organized theft, offenders are opportunistic, often victimizing wherever an opportunity arises. Crime sprees, where a group of offenders has stolen motor vehicles in one area of the city, to go on to hijack another vehicle in a second area and commit commercial burglary with those vehicles in a third area have, in some of their parts, occurred within the proposed zone.			
	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. <i>Who is / are the victim(s)?</i></p> <p>Community Members are victims, having expressed a dissatisfaction with the fear of victimization by Robbery while they go about their day, traveling from their homes to various shops in the retail area. The victims are the community at large, affected by the uncertainty of finding their personal belongings stolen from around their homes or shoplifted from businesses. The Community is further made to suffer when the local businesses are victimized by loss of revenue and closures forcing the local population, many of whom are seniors, to travel further and spend more of their limited income. The impact of these crimes will have long-term adverse effects on community well-being. The systemic nature of property crime affects every segment of the Community regardless of age, ethnicity, race, or other demographic categories.</p>			
		<p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Motives are can be personal, material gain and the perverse pleasure of lawlessness. Middle hours of the night or times of high pedestrian or vehicle traffic. The area's main thoroughfares of 106th St & Ewing, access to the Skyway, and Indianapolis Blvd which act as gateways to NW Indiana and junction to the 90/94 Express Way, draw community member at large from the adjacent beats: 434, 423, & 424. Offenders often go about armed and have proven willing to shoot community members who have directly intervened.</p>

Response	Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i>	<p>Proximity to scrap facilities and proximity to arterial roadways allows Catalytic converter thieves ready access to scrap metal facilities in the Illinois/Indiana corridor. Vacant industrial properties along the same area allow for the facilitation of various property crime. These locations allow for the temporary storage or abandonment of a stolen vehicle or contents from bulk theft, cut open an ATM for its cash, or transact transfer of the products for cash. This contributes to the area being an attractive resource for offenders.</p> <p>There is an ongoing historic medium gang conflict involving the Latin Kings, Spanish Vice Lords and Latin Counts (GC-A2-004-011) with the area comprised being declared Latin King Territory.</p>		
	Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i>	<p><i>Non-enforcement response (required):</i></p> <p>The 004th District Community Policing team will increase awareness of the problem by historic means of flyers, prayer vigils, community engagement, listening sessions, direct advocacy and intervention. They will continue to act as liaison between the community and the patrol and enforcement in the 004th District. The DCO Team will focus their intervention by engaging with information from the alderperson, local businesses, and peer-to-peer conflict resolution as well as increasing access to private security cameras. Community engagement especially through Block Clubs and Community groups are pivotal to success of the intelligence used for field units to deploy. Phone trees are an effective tool for information and awareness. The youth offender component of this type of crime should not be overlooked. Outreach at the local schools and encouragement to the linkages provide by the Community Policing office in the form of Job Fairs and Resource access to higher education and trade schools.</p>		
		<p><i>Enforcement response (if applicable):</i></p> <p>Enforcement strategies include 004th District Tactical teams running directed missions during the identified peak times. The identified watches will determine the window of time and location when shooting incidents occur on their watch. Officers assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any offences can be quickly reviewed, and verified. Information can be dispatched to the patrol vehicles in real time. The 004th District Intelligence Officer will collaborate will utilize their resources to develop intelligence for better "real time" deployment as well as responding to incidents where they can develop and increase their network coordination with Hammond and other jurisdictions in NW Indiana, as well as the surrounding suburbs for identifying offenders with similar modus operandi.</p>		
	Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i>	<p>By employing deflection tactics (custom notifications), environmental tactics (vacant lot clean-up, fencing and lighting) and enforcement tactics (tact teams, beat integrity and outside assistance from community safety teams) the 004th District will attack the root cause on multiple fronts. Increased patrol, POD monitoring, and community engagement should decrease the frequency these offenders identify an opportunity for commission of the crime.</p>

	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>A longitudinal analysis of 004th District crime data (YTD, Year-Over-Year, 2024: Quarter-by-Quarter) indicated a 228% increase in Agg. Batt. Incidents. These increases persist in an environment where index crimes in 2024 have trended dramatically downward at the time of this report most notably: Homicides are down 31%(citywide 8.6%), Shootings 11%(5.8%) and Armed Robberies 43%(32%)</p>		
Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. <i>Who is / are the victim(s)?</i></p> <p>Victims, in addition to the person struck by gunfire, are the community members living in the area that constantly feel unsafe due to the amount of robbery incidents and violent crimes plaguing this community. Small business owners, suffer financially from income instability and lost revenue as patron's fear coming to the area at what once were peak times of day. The lack of financial, especially commercial, reinvestment in the community over the last 40 years in the climate of gang, drug, robbery issues keeps the area from thriving. Every business that is victimized the community twice because of how important the existing business are to their patron. Exposure to gun violence increases the likelihood that they will use violence as a means of resolving problems, instead of through effective communication. Attraction to a "gangster" lifestyle is pervasive amongst youth, who indicate feelings of diminished options and opportunities relative to their socio-economic status. This violence—in its many forms—affects every segment of the Community regardless of age, ethnicity, race, or other demographic categories</p>		
		<p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>An extensive, yet loose network of criminals, participate in the open air drug markets on several blocks in the area. The mindset of dealer and addict operate in concert, leaving both to move about the area in search of opportunities for short term gain through intimidation, robbery, theft, and burglary. These actions and behaviors foster and exacerbate personal and historical gang violence. Firearms are in large supply for protection of drug sales areas, personal protection, vengeance and robbery. Flight in vehicles due to the proximity to Lakeshore Drive and the Chicago Skyway is made easier than in areas further away from such major arterial thoroughfares. A large portion of the areas affiliated criminal elements walk about the neighborhood, at the ready to mask or distract the field units allowing offender's fleeing on foot to make good their escape. This, coupled with the residential flats being court-way apartment buildings, allow for offender to get into the propped door or iron gate of a multi-door, multi-floor area, each with a potentially sympathetic individual willing to give cover to a fleeing offender.</p>

There is an ongoing high threat gang conflict (GC-A2-004-018) involving the Pocket Town, Gangster Disciples and the 79th & Essex Black P-Stones and a High Level Gang Conflict (GC-A2-004-001) Between the Lakeside GD and the Terror Town, BPS			
	Response Strategy Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.	<p><i>Non-enforcement response (required):</i></p> <p>An increase in community partnership and engagement that would aide in the identification and prosecution of these malignant elements of the area. Many of the non-violent offenders suffer from mental illness and addiction. A push to promote civic resources in counseling and treatment for these issues. Job programs for young adults may divert individuals from crime as a means of financial support.</p> <p>The 004th District Community Policing team will increase awareness of the problem by historic means of flyers, prayer vigils, community engagement, listening sessions, direct advocacy and intervention. They will continue to act as liaison between the community and the patrol and enforcement in the 004th District. The DCO Team will focus their intervention by engaging with information from the alderperson, local businesses, and peer-to-peer conflict resolution as well as increasing access to private security cameras. Community engagement especially through Block Clubs and Community groups are pivotal to success of the intelligence used for field units to deploy. Phone trees are an effective tool for information and awareness.</p> <p><i>Enforcement response (if applicable):</i></p> <p>At the planning stage, regarding enforcement and prevention, focusing on retaliatory incidents can impact violence; the 004th District currently identifies disputes, but the responses, and tracking of such responses, have been challenging. Disputes can vary by reason (i.e., what is causing the problem), and the type of people who are involved (e.g., gangs, neighbors, family members, etc.), requiring unique and varied responses for each dispute. However, intervening in these types of incidents can prevent smaller and sometimes trivial issues from escalating into violence and retaliation back and forth. Enforcement strategies include 004th District Tactical teams running directed missions during the identified peak times. The identified watches will determine the window of time and location when shooting incidents occur on their watch. Request assistance from Community Safety Teams to address spikes in violence. Officers assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of violence can be quickly reviewed, and verified information can be dispatched to the patrol vehicles in real time. 004th District Intelligence Officer will collaborate will utilize their resources to develop intelligence for better "real time" deployment as well as responding to incidents where they can develop and increase their</p>

	Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i>	Reinvigorating communities is essential if we are to deter crime and create more vital neighborhoods. In some communities, it will take time to break down barriers of apathy and mistrust so that meaningful partnerships can be forged. Trust is the value that underlies and links the components of community partnership and problem solving. A foundation of trust will allow 004th District Officers to form close relationships with the community that will produce solid achievements. Without trust between police and citizens, effective policing is impossible. Individually, community partners make small but meaningful contributions, but as a united front, these individuals working alongside the 004th District officers can make a significant impact on the lives of children, youth and members of the community exposed to gun violence in their homes as well as at their schools and in their communities.
