

Community-Driven Approaches to Crime Reduction - District Strategic Plan
CHICAGO POLICE DEPARTMENT

District: 001

Year: 2026

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. **Please ensure responses are specific and detailed.**

PROBLEM SOLVING PRIORITY #1					
Scanning	Priority Title	Quality of Life - Disorderly Conduct - Loop			
	Priority Type	<input type="checkbox"/> Violent Crime	<input type="checkbox"/> Property Crime	<input checked="" type="checkbox"/> Quality of Life	
	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input type="checkbox"/> Crime Data	<input type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings	<input checked="" type="checkbox"/> Other: Chicago Loop Alliance Safety Meetings
Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>Although overall crime in the Loop has continued to decline, the area still experiences a high volume of quality-of-life issues such as disorderly conduct, loud music, and harassment complaints. Disorderly conduct-related calls (January to December) increased from 534 in 2024 to 671 in 2025, indicating that these lower-level incidents remain a consistent part of the daily environment. This was also a top concern for many of those that attended our District Community Conversations.</p> <p>The Loop is already a strong economic, cultural, and transportation center. By focusing on these quality-of-life concerns, the district has an opportunity to further enhance the atmosphere, strengthen community confidence, and support a more welcoming and vibrant downtown experience for residents, workers, and visitors. This priority reflects a proactive effort to build on existing progress and ensure the Loop continues moving in a positive direction.</p>				
Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>1. <i>Who is / are the victim(s)?</i></p> <p>The victims are residents, students, workers, businesses and visitors to the area.</p>			
		<p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Offenders commonly remain near transit exits or in areas with significant pedestrian traffic, allowing them to blend into crowds or leave the area quickly.</p>

Response		<p>3. <i>What is the location of this problematic activity? Use street names to delineate the boundaries below:</i></p> <ul style="list-style-type: none"> • Eastern Boundary: Michigan Ave • Western Boundary: Wacker Dr • Northern Boundary: Wacker Dr • Southern Boundary: Ida B. Wells 		
	<p>Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i></p>	<p>Visible disorder, high foot traffic area, behavioral health challenges, and a perception gap between crime statistics and daily experiences.</p>		
	<p>Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i></p>	<p><i>Non-enforcement response (required):</i></p> <p>The District will maintain and strengthen its relationships with community partners. These partners assist us by contacting 911 when necessary, enhance security measures in and around their properties, and conduct regular cleanups of litter and debris. These partners include residents, building managers, other government agencies, local schools, and the business community. Our Business and Community Liaison Officers will frequently check-in with them to ensure they are aware of happenings in the area and provide information on how to best prepare and prevent any disorderly conduct.</p> <p>The District Homeless Outreach Team will engage with those experiencing homelessness to establish relationships and ensure they have needed resources.</p> <p><i>Enforcement response (if applicable):</i></p> <p>The main enforcement response will be increasing our visibility in these areas. Foot and Bike patrols help get our Officers closer to the problem while being more approachable at the same time. If our Officers are in a specific area, offenders are less likely to cause problems. Our Tactical Team Officers will also conduct missions in this area. SDSC Officers will remain in constant communication with field Officers and report suspicious activity, so further investigation can take place.</p>		
	<p>Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i></p>	<p>Fostering an environment where everyone feels welcome to explore and enjoy our beautiful loop area is essential. When individuals understand that disorderly conduct will not be tolerated, they are likely to change their behavior or leave the area. Overall, the strategy focuses on both addressing immediate issues and tackling the underlying causes to improve quality of life in the community.</p>

PROBLEM SOLVING PRIORITY #2					
Scanning	Priority Title	Quality of Life - Disorderly Conduct & Vice Complaints - Roosevelt Corridor			
	Priority Type	<input type="checkbox"/> Violent Crime	<input type="checkbox"/> Property Crime	<input checked="" type="checkbox"/> Quality of Life	
	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input checked="" type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input type="checkbox"/> Crime Data	<input type="checkbox"/> Community Interactions	<input checked="" type="checkbox"/> Beat Meetings	<input checked="" type="checkbox"/> Other: South Loop Neighbors
	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>During our Community Conversations, many expressed concerns about disorderly conduct, vice and quality of life issues occurring in the Roosevelt Corridor, the area along Roosevelt Road between Michigan Avenue and the Dan Ryan Expressway. This region is crucial to the South Loop, featuring numerous retail and grocery stores, restaurants, residential buildings, and a major transportation hub. This priority is similar to priority #1 in that they both involve disorderly conduct, but affect different communities, business types, transit environments, and operational needs.</p> <p>Although overall crime in the area has decreased, mirroring the trend of priority #1, many residents still face quality of life challenges. From January to November 2025, there were 1,225 calls for service related to disorderly conduct. When these issues contribute to feelings of insecurity, people are less likely to take full advantage of the area's offerings.</p> <p>The Roosevelt Corridor/South Loop is a lively part of the city with much to offer. By addressing these quality of life issues, we can make the area more welcoming for everyone to enjoy.</p>			
Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>4. Who is / are the victim(s)?</p> <p>The victims are residents, students, workers, businesses and visitors to the area.</p>			
		<p>5. Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</p> <p>Offenders frequently gather near businesses and transportation hubs, sometimes causing disturbances or taking part in vice related activity inside these establishments, which can make patrons and employees feel unsafe. The area's congestion and the availability of multiple public transportation options often allow them to leave the scene unnoticed.</p>

<p>Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i></p>	<p><i>Non-enforcement response (required):</i></p> <p>The Community Policing and Business Liaison Officers will develop strong partnerships with local residents and businesses to facilitate ongoing communication about issues and foster collaborative problem solving. They will also collaborate with community groups like the South Loop Neighbors. Their presence and involvement in the area enable them to explain the issues more effectively.</p> <p>Beat Sergeants will conduct outdoor roll calls to further increase police presence and Beat Officers will conduct frequent checks at the CTA's Roosevelt stations.</p> <p>The District Homeless Outreach Team will engage with those experiencing homelessness to establish relationships and ensure they have needed resources. If they come across an individual that uses narcotics, they will connect them with addiction service providers such as the Family Guidance Center on Chicago Ave. or Chicago's Department of Family and Support Services. This effort will also help eliminate narcotic sales from occurring in the area.</p> <p><i>Enforcement response (if applicable):</i></p> <p>A stronger police presence can help deter many of these issues. Foot and bike officers will regularly patrol the area, providing visibility and approachability. By frequently walking the area, Officers gain a deeper understanding of local dynamics. Being on foot or bicycle also allows access to areas that are not easily visible to an officer in a vehicle, and they investigate any suspicious activity.</p> <p>Tactical teams will undertake proactive missions in the area, patrolling for suspicious behavior and taking enforcement action as necessary. Additionally, they will work with the Departments Narcotics and Vice Divisions when needed.</p>

	<p>Officers in the SDSC room will monitor cameras along Roosevelt Road and report any suspicious activity to officers in the field.</p>		
<p>Root Cause Mitigation Explain how the Response Strategy directly addresses the root cause that was analyzed above.</p>	<p>By deploying foot and bike officers, the strategy ensures increased visibility and approachability, deterring disruptive behaviors by facilitating frequent interactions and monitoring of key areas. Building strong community partnerships with residents, businesses, and local organizations fosters collaboration, allowing for coordinated efforts that address underlying issues. Proactive missions by tactical teams identify and address suspicious activities, while collaboration with social services ensures those in need receive appropriate support. Surveillance and camera monitoring enable rapid response to maintain public safety. Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>Our third priority is addressing motor vehicle theft and burglary from vehicles in the 30 sector. We selected this as one of our three main priorities because residents have emphasized the significant impact of this issue during our community conversations and beat meetings. Such crimes can be particularly troubling as they infringe on personal security and often result in financial burdens and disruptions to daily life.</p> <p>Statistics also indicate an upward trend. In 2024, there was a combined 379 incidents of motor vehicle thefts and burglary from vehicle from January 1st to November 30th, compared to 413 incidents during the same period in 2025.</p>				
Analysis	<p>7. <i>Who is / are the victim(s)?</i></p> <p>Victims are residents or visitors to the area.</p>				
	<p>8. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Offenders typically employ several methods to commit motor vehicle thefts and burglaries. Common techniques include breaking a window to gain entry, using cloned key fobs, or taking advantage of vehicles left unlocked and running. These crimes often occur in parking lots or garages that are isolated from crowds, where vehicles are more vulnerable to theft. We also see a high number of vehicles parked on the street targeted during the overnight hours.</p> <p>Additionally, offenders target high-traffic areas, observing for opportunities when individuals step away from their running vehicles.</p> <p>The location's proximity to several major thoroughfares and expressways facilitates a swift escape from the area for offenders.</p>

Response	<p>Root Cause Analysis Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</p>	<p>Poor lighting and insufficient surveillance in parking lots and garages make these areas more attractive to offenders.</p> <p>Advances in technology, like cloned key fobs, present new ways for offenders to exploit vehicle security systems.</p> <p>Insufficient public awareness regarding vehicle security, such as the importance of not leaving cars running unattended, ensuring their vehicles are locked, and removing valuables, creates opportunities for theft.</p>		
		<p><i>Non-enforcement response (required):</i></p> <p>Business and Community Policing Officers will:</p> <p>Collaborate with local businesses and garage owners to improve surveillance coverage, including implementing or upgrading camera systems in vulnerable areas. Additionally, we will encourage the use of security personnel to be visible in the area.</p> <p>Participate in community meetings to educate the public about preventive measures, such as locking vehicles, using steering wheel locks, not leaving them running, and securing valuables out of sight.</p> <p>Establish or support neighborhood watch programs to foster community vigilance and collaboration with police efforts.</p> <p>Contact short-term rental owners (AirBnB, VRBO) to ensure they notify their guests about vehicle safety precautions.</p>		
		<p><i>Enforcement response (if applicable):</i></p> <p>Our Tactical Team Officers will conduct Vehicle Theft/Burglary missions in the area. During these missions, Officers will be highly visible and monitor for any suspicious activity. Further investigation will be taken if needed. The Tactical Team Supervisors will work with the District Command Staff and Analyst to ensure they are focusing in the right areas and time of day to be most effective.</p>		

Community-Driven Approaches to Crime Reduction - District Strategic Plan
CHICAGO POLICE DEPARTMENT

	<p>SDSC Officers will stay updated on affected areas and ensure they are monitoring any POD cameras in those areas.</p> <p>During roll calls, Watch Officers will be briefed on identified patterns and will conduct additional patrols in those areas. They will also perform routine checks on frequently used parking garages and lots within their beats. Finally, they will utilize vehicles with License Plate Readers which can immediately identify vehicles that have been reported stolen.</p> <p>District Intelligence Officers will work with Area Detectives as well as the Motor Vehicle Theft Task Force to help identify Offenders and the patterns they are using to commit these crimes.</p>		
<p>Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i></p>	<p>By enhancing patrols and increasing police visibility in high-risk areas, the strategy aims to deter criminal activity, particularly in poorly lit and low-surveillance environments. Community engagement efforts, including education on vehicle security, tackle the lack of public awareness, urging individuals to lock their vehicles and secure valuables, thus reducing theft opportunities.</p> <p>The strategy's focus on collaboration with local businesses for improved surveillance directly addresses technological vulnerabilities by ensuring potential offenders are monitored more effectively. Additionally, public awareness campaigns increase the community's understanding of security measures, minimizing opportunities for theft through improved personal practices. The use of technology, such as license plate readers, further strengthens vehicle security by providing real-time monitoring and response capabilities.</p>

	<p>Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i></p>	<p>The Response Strategy empowers the community to lead efforts against vehicle thefts and burglaries by actively involving residents in crime prevention. Through community engagement and educational initiatives, individuals gain the knowledge needed to implement security measures, thus reducing theft opportunities. Public awareness campaigns and neighborhood watch programs foster collaboration, transforming residents into proactive participants in monitoring and safeguarding their surroundings. Involving local businesses and organizations in surveillance enhancements further integrates community efforts with police activities. This collective approach not only empowers the community but also cultivates a shared responsibility for maintaining safety and resilience.</p>
