

Community-Driven Approaches to Crime Reduction - District Strategic Plan

CHICAGO POLICE DEPARTMENT

District: 004

Year: 2026

SECTION 1 – PROBLEM SOLVING PRIORITIES

Determine and define three problem solving priorities for your District for the coming year, as identified by the community. Provide responses below to delineate how the District will apply the SARA model of problem solving to each priority. Please ensure responses are specific and detailed.

PROBLEM SOLVING PRIORITY #1					
Scanning	Priority Title	Aggravated Batteries			
	Priority Type	<input checked="" type="checkbox"/> Violent Crime	<input type="checkbox"/> Property Crime	<input type="checkbox"/> Quality of Life	
	Source <i>Check all that apply</i>	<input checked="" type="checkbox"/> Calls for Service	<input checked="" type="checkbox"/> Community Conversations	<input type="checkbox"/> DAC Meetings	<input type="checkbox"/> Resident Survey Data
		<input checked="" type="checkbox"/> Crime Data	<input checked="" type="checkbox"/> Community Interactions	<input type="checkbox"/> Beat Meetings	<input type="checkbox"/> Other: _____
Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>Analysis of crime data indicated that over the 2025 calendar year, the listed boundaries have incurred a 133.4% increase in Aggravated Batteries with firearm in an area that from 2024 - 2021 had 3 or less. Additionally, Aggravated Batteries as a total incident class were up 46% after having trended annually over 10% since 2021. 8 Shooting incidents in 2025 up from 6 in 2024 and 3 in 2023. Proximal Violent Crime is on the increase with Armed Robberies up 125%. The Number of Arrestees reporting residence in the proposed boundary has trended upwards of 40% over the last five years. The Rate at which stolen autos have been recovered has grown 380% in a single year (2025). In recent years, Community Conversations have yielded a steadily increasing concern over harassment and victimization from the local criminal element as they seek to patronize the Department of Aging center or Fifth Third Bank as well as nearby public transportation access, convenience stores, and eateries. Elected officials, Community organizing bodies and local residents at community meetings have informed violence and open narcotics dealing as well as other quality of life crimes for this area in recent years. The result of the conflict between factions of a criminal element, supported by the aforementioned data, and N.I.B.I.N expressed through aggravated batteries. We will address this by applying resources to reduce crime in the area.</p>				
Analysis	<p>1. <i>Who is / are the victim(s)?</i></p> <p>Although the most quantifiable victims are the various individuals struck by gunfire or victim to the random, volatile behavior of a small fraction of habitual criminals, the greatest victimization happens to the community at large with the traumatic stress endured by those who live and work in the area. These community members endure a posture of sharing their neighborhood with smaller disruptive group of criminal opportunists, whose presence attracts the attention of rivals in the narcotics and gang world—thereby increasing the frequency of shooting incidents in the area.</p>				
	<p>2. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>The area has many qualities that help create a nexus of endemic criminal activity due to its proximity to Stony Island Blvd leading to the Stony Island Feeder to the Bishop Ford, the Chicago Sky Way, 79th St which is close to both Du Sable - Lake Shore Drive and the Dan Ryan Express Way. This creates an ease for contraband trafficking as well as paths of ingress and flight for gun violence from rivals. 79th & Cregier / Drama World Gangster Disciples, who are rivaled by the Black P-Stones and have internal conflict with Merrill Town Gangster Disciples, claim the area as within their territory. Personal conflict stemming from social media and schools draw criminally violent offenders from other areas of the city. Violence at the hands of armed criminals for the purposes of robbery and</p>

		<ul style="list-style-type: none"> • Eastern Boundary: S. Stony Island Ave • Western Boundary: S. Ridgeland Ave • Northern Boundary: E. 78th St. • Southern Boundary: S. South Chicago Ave 		
	Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i>	The area's proximity to major arteries for vehicles and foot traffic allows for particularly active narcotics trade and general increases in statistical violence have made the area a nexus of opportunity for targeting of narcotics competition. The increase of recovered stolen autos speaks to the terminus of the use of the stolen auto in its criminal involvement.		
	Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i>	<p><i>Non-enforcement response (required):</i></p> <p>The 004th District Community Policing office members will increase awareness of the issue by historic means of flyers, prayer vigils, community engagement, listening sessions, direct advocacy and intervention. They will continue to act as liaison between the community and the active monitoring, patrol, and enforcement in the 004th District. The DCO Team will continue their mission of engaging with information from the alderperson, local businesses, and peer-to-peer conflict resolution as well as increasing access to private security cameras. Community engagement, especially through our Block Clubs and Community Organizations, are pivotal to this plan's success and an important source of intelligence used for our field units to deploy. Phone trees are an effective tool for information and awareness. The 004th District will also work with our local business partners and community leaders in communicating data to our various intelligence and investigations unit and will continue to encourage said partners to upgrade lighting and private cameras where needed. 004th District Tactical teams will run directed missions with intelligence gathered.</p> <p><i>Enforcement response (if applicable):</i></p> <p>Increased targeting of the narcotics element by patrol and tactical units in the field with increases in blue light and traffic missions will increase the scrutiny and decrease the anonymity in which offenders thrive. The 004th District will monitor cameras, and perform data analytics with technology utilized by its SDSC room. The identified watches will determine the peak time and location when Aggravated battery incidents occur on their watch. Request assistance from Community Safety Teams to address spikes in violence. Assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of violence can be quickly reviewed, and verified information can be disseminated to the patrol vehicles in real time.</p>		
	Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i>	By employing deflection tactics (custom notifications), environmental tactics (vacant lot clean-up, fencing and lighting), coordination with our business partners within the area and enforcement tactics (tact teams, beat integrity and outside assistance from community safety teams) the 004th District will attack the root cause on multiple fronts.

Assist interrupters and invite them to include programs that detach young men from gangs, those who meet with shooting victims in hospitals to deter retaliation and those who offer young men employment and counseling in cognitive-behavioral therapy.		
<p>Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i></p>	<p>Reinvigorating communities is essential if we are to deter crime and create more vital neighborhoods. In some communities, it will take time to break down barriers of apathy and mistrust so that meaningful partnerships can be forged. Trust is the value that underlies and links the components of community partnership and problem solving. A foundation of trust will allow 004th District Officers to form close relationships with the community that will produce solid achievements. Without trust between police and citizens, effective policing is impossible. Individually, community partners make small but meaningful contributions, but as a united front, these individuals working alongside the 004th District officers can make a significant impact on the lives of children, youth and members of the community exposed to gun violence in their homes as well as at their schools and in their communities.</p>			
	<p><i>Focus Metric (refer to the District Guidance Document for a list of aligned metrics):</i></p> <p>Primary metric will be the comparison of the number of Aggravated Battery with Firearm incidents, measured quarterly and compared year - over - year with previous years within the listed boundaries.</p> <p><i>Additional Metrics:</i></p> <p>Feedback from community members and stake-holders via community meeting and public interactions with officers during any and all interactions will aid in the assessment of the perception by the community in the decrease in aggravated batteries as well as satisfaction with the quality of life that contributed to their concerns with the area.</p>			
<p>Assessment Plan</p>	<p>Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. Then, list any other quantitative and qualitative outcomes that you will use to track progress.</i></p>

<p><i>ensure that the Response Strategy is having the desired impact</i></p>	<p><i>How frequently will District personnel follow-up to ensure the Response Strategy is having the desired impact?</i></p> <p>The District commander is given data for the district plan's zones daily. Teleconferencing, in the form of the 004th District Community Meeting, is held weekly with various communities in the 004th District. In a four-week cycle, citizens are able to receive an individual sector briefing and a comprehensive district-wide briefing. Analysis is performed daily and publicly given to the community on a given DSP zone twice a month. Feedback can be given directly to community policing office or at 004inform@chicagopolice.org. Beat officers and Sector Sergeants provide constant feedback to the Watch Operations Lieutenant (WOL) who along with the district commander and district XO set strategies based on current data and deploy resources accordingly.</p>
<p>Mitigation Criteria <i>Explain how you will specifically know when the problem can be considered "addressed". Consider both quantitative and qualitative approaches.</i></p>	<p>The problem will be addressed, when a significant decline in Aggravated Battery incidents is detected but also with the consideration of feedback garnered primarily through the Community Policing Office and the DCO's efforts in the area. Although we must keep in mind that success can only be obtained if the documented strategies continue to work and show steady decline. Otherwise, independent variables could be responsible for a momentary decline.</p>

Scanning	Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>Community concern and awareness voiced at community conversations and community meetings suggest trends indicative of gang activity and quality of life issues, which have grown slightly over a larger geographic area are given an increased focus when brought under the specific "lens" of shots fired. Over a much wider area, turbulent issues in the same community can be observed:</p> <p>66% growth in reports for simple assault the increase in quality of life arrests from 199 in 2021 to 382 in 2025 an increase from 59 incidents of theft in 2021 to 133 in 2025 Vandalism has increased from 84 in 2021 to 120 in 2025 In this same area the amount of offenders who resided in the area stood at 76 in 2021 and has grown year over year to 161 arrests of offenders who lived in this greater area.</p> <p>The increase in the incidents of Shots Fired calls within the given boundaries are the most grave representation of trends creeping into this community which had comparatively low levels of calls for service for shots fired over the previous five year period. The incidents of shots fired have grown 360% in a single year, which would seem to indicate that the drivers of the most potentially dangerous crimes are operating within this vicinity and the removal or deterrence is paramount to matching expectations for public safety within the community.</p>		
	Analysis	Problem Analysis <i>Explain the problem by describing each of the listed elements. Be as specific as possible.</i>	<p>4. <i>Who is / are the victim(s)?</i></p> <p>The victim is the entire community. The sound of gunfire in the community harms not only the intended target but also every resident who hears it. Leaving said community members intimidated in their own neighborhood, which is often the secondary purpose of the incident.</p> <p>5. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>Following the June 2025 Gang Audit, the District has identified emerging territorial disputes between Gang/Narcotics groups. This observance in territorial disputes drive the shots fired incidents. Offenders approach in vehicles by a conventional "drive-by" method or will scout the area, then use a feint or distraction while other offenders approach on foot in an ambush of gunfire. Offenders flee the area using nearby Indianapolis Boulevard, enter the Chicago Skyway or Hammond in the State of Indiana, or cross the Calumet River Bridge on 106th St benefiting from the lack of cross streets through Torrance Ave. travelling south to the suburb of Brainerd or continue to the Bishop Ford Express Way via E. 103rd St or E. 130th St.</p>

Rationale <i>Explain why this is a top priority for your district. Provide specific numbers for calls for service and/or crime data to support your explanation. Be as specific as possible.</i>	<p>The violent crime endemic to the South Shore community proves to be one of the most challenging problems in the 004th District. In 2025, a reduction of shootings and robberies in the area examined overlap 2025s #3 district strategic plan, which saw a near 38% reduction in its number of shootings. Ironically, the area had an increase in homicides. In the evaluation for the DSP #3, and area in the south shore community, which saw a near 300% increase in the number of homicides was determined. At the same time, this area saw a decrease of total violent crime of 27%. Factors for the increase on homicide while decreasing in shootings in this area (35%) are speculative but may involve the influx of new criminal faction members who now reside the immediate area, and are in competition with the historic street gangs of South Shore.</p>				
Analysis	<p>7. <i>Who is / are the victim(s)?</i></p> <p>The direct victims of these have ranged from mid 20 to mid 40 years of age are both male and female mostly in the late afternoon until the late evening. The deaths have a chilling effect on the community members who have a hard time feeling safer in a demonstrably less violent atmosphere when homicide in there neighborhood has not been reduced. Men and women fear being drawn into a verbal altercation, children fear being caught by stray gunfire, and mothers and fathers fear a call informing them that tragedy has struck their families.</p>				
	<p>8. <i>Describe the methods / actions used by the offender (do not include demographic information). Include any identified patterns such as motives, types of weapons used to commit the crime, how they attempt to flee the scene of the crime, etc.</i></p> <p>In the majority of cases, the offenders have been armed with handguns and in altercations with victims, are able to approach victim closely enough to have devastating, fatal injury from gunfire. These individuals flee along predetermined paths of flight commensurate with the endemic criminal activity into large apartment blocks or make good their escape via South Shore Dr. (US Rt. 41). or 79th St to the Stony Island intersection, which is proximal to the Chicago Sky Way and the Bishop Ford Exp Way and Dan Ryan Exp Way.</p>

<p>Root Cause Analysis <i>Identify potential root causes of the problem that, if mitigated, would prevent the problem from re-occurring. Be as specific as possible.</i></p>	<p>GC-A2-004-001 Narcotics Sales / Retaliatory Violence & GC-A2-004-018 Gang/Drill Rap reviewed 06 Oct 2025 relate that both conflicts are active.</p> <p>The trend in the offender's willingness to engage in a high speed chase and the use of stolen motor vehicles by would be offenders have contributed to a lawless extreme minority who have a decreased respect for the sanctity of human life and the will to intimidate others using violent measures to achieve immediate goals.</p>		
<p>Response Strategy <i>Describe the overall approach that will be taken to solve the problem, based on the Analysis completed above. Non-enforcement strategies must be included.</i></p>	<p><i>Non-enforcement response (required):</i></p> <p>The 004th District Community Policing team will increase awareness of the problem by historic means of flyers, prayer vigils, community engagement, listening sessions, direct advocacy and intervention. Ensuring compliance and stake-holdership by the more corporate entities that manage and own the housing to which these and other, similar incidents occur adjacent. They will continue to act as liaison between the community and the patrol and enforcement in the 004th District. The DCO Team will focus their intervention by engaging with information form the alderperson, local businesses, and peer-to-peer conflict resolution as well as increasing access to private security cameras. Community engagement especially through Block Clubs and Community groups are pivotal to success of the intelligence used for field units to deploy. Phone trees are an effective tool for information and awareness.</p>		
	<p><i>Enforcement response (if applicable):</i></p> <p>Disputes can vary by reason (i.e., what is causing the problem), and the type of people who are involved (e.g., gangs, neighbors, family members, etc.), requiring unique and varied responses for each dispute. However, intervening in these types of incidents can prevent smaller and sometimes trivial issues from escalating into violence and retaliation back and forth. Enforcement strategies include 004th District Tactical teams running directed missions during the identified peak times. The identified watches will determine the window of time and location when shooting incidents occur on their watch. Request assistance from Community Safety Teams to address spikes in violence. Officers assigned SDSC Room Officers will conduct POD missions within these boundaries during peak hours. Any acts of violence can be quickly reviewed, then verified information can be dispatched to the patrol vehicles in real time. 004th District Intelligence Officer will collaborate will utilize their resources to develop intelligence for better "real time" deployment as well as responding to incidents where they can develop and increase their network. Cars equipped with LPR cameras will identify "Hot" plates for increased action on the vehicles involved in shooting.</p>		
<p>Root Cause Mitigation <i>Explain how the Response Strategy directly addresses the root cause that was analyzed above.</i></p>	<p>High visibility patrol by district units to deter the more volatile elements from commission of the crimes in the first place, intelligence and technology based interventions to determine priority utilization of resources, targeted enforcement that is aligned with community sensibilities and leave no doubt in the community consciousness that the Chicago police department is there ally. By employing deflection tactics (custom notifications), environmental tactics (vacant lot clean-up, fencing and lighting) and enforcement tactics (tact teams, beat integrity and outside assistance from community safety teams) the 004th District will attack the root cause on multiple fronts.</p>

	<p>Community Ownership <i>Explain how the Response Strategy and activities listed above will establish and empower the community to take on a leadership role in solving the problem.</i></p>	<p>Reinvigorating communities is essential if we are to deter crime and create more vital neighborhoods. In some communities, it will take time to break down barriers of apathy and mistrust so that meaningful partnerships can be forged. Trust is the value that underlies and links the components of community partnership and problem solving. A foundation of trust will allow 004th District Officers to form close relationships with the community that will produce solid achievements. Without trust between police and citizens, effective policing is impossible. Individually, community partners make small but meaningful contributions, but as a united front, these individuals working alongside the 004th District officers can make a significant impact on the lives of children, youth and members of the community exposed to gun violence in their homes as well as at their schools and in their communities.</p>			
	<p>Metrics <i>Select the Focus Metric that will be used as the primary measure to evaluate progress for this problem. DIO monitoring intelligence on gang and narcotic issues should continue due to the fluid nature of external, internal, and individual conflict that lead to person on person crimes. Public perception is a key indicator in building and reinforcing the partnership between the 004th District and the community. Information garnered from community members at beat meetings and other community engagements on whether or not they are seeing a decrease in violent crime in the listed boundaries.</p>
