Michael A. Bilandic
Mayor

James M. Rochford
Superintendent of Police

July 1, 1977

Dear Mr. Mayor:

Submitted herewith is the Chicago Police Department's Annual Statistical Summary for 1976. It is designed for reference use by our Department, governmental and other law enforcement agencies at city, state and national level as well as others who may request information from the Chicago Police.

We are indebted to you, the members of the Chicago City Council and other Department heads for continued support of our efforts to give Chicago the finest police department in our country.

Sincerely yours,

James M. Rochford
Superintendent of Police

Honorable Mayor Michael Bilandic
Mayor of Chicago
City Hall
Chicago, Illinois 60602

1976 --- A YEAR OF CHALLENGE, A YEAR OF PROGRESS

For the second consecutive year, the Chicago Police Department realized a crime decrease in 1976. Major crimes such as homicide, rape, robbery, assault, burglary, theft and auto theft declined 9% with total crimes down 11.2% for the year.

It is also to note that the Federal Bureau of Investigation, in its 1976 annual report, lists Chicago as the 50th lowest in per capita crime among the 55 largest cities in the United States. Two years ago, Chicago ranked 39th. Moreover, Chicago ranked as the fifth lowest in per capita crime among the nation's five largest cities having 1,000,000 or more population last year — both outstanding accomplishments.

Again, while much of the credit for the aggressive, preventive patrol which was instrumental in the Department's crime reduction for the year, goes to the Patrol Division, we cannot forget to emphasize the outstanding efforts of all the other units of the Department.

CITIZENS ASSISTED TO REDUCE CRIME

Superintendent James M. Rochford credits the cooperation of Chicago citizens as one of the reasons for the decline in crime, pointing out that more and more citizens are participating in various crime prevention programs in their neighborhoods. These programs encourage citizens to become involved and to share the responsibility for crime prevention.

Perhaps the most dynamic and enterprising of these programs is the Citizen's Beat Representative Program with its virtual army of 3,000 Beat Reps and Block Captains working daily in their neighborhoods.

Last year, with the acquisition of federal and local funds, the Beat Representative Program through its newly appointed director, hired 10 Beat Representative Coordinators and secretarial staffs to operate district centers in 10 police districts throughout the city which are part of Phase I of the program. District Centers were officially opened in early May 1977.

The coordinators and their staffs will stimulate neighborhood participation and assist area residents with various problems involving the prevention and reduction of crime, in keeping with the Department's goal to maintain the most effective people — program in the country.

Phase II of the program, which involves the hiring of additional beat coordinators and office staffs, in the remaining 13 police districts, will be completed in 1977.

This innovative, grass roots program affords citizens

and police an opportunity to meet regularly to discuss community programs and to work out practical solutions as a team effort.

HOMICIDES DECLINED

There were 814 murders in Chicago in 1976, down 9% from the year before. Although the number of murders in which firearms were used declined during the year, there was a dramatic increase — 50% — in the number of murder by youths under 21 years of age using firearms.

At the same time, 18,330 firearms were confiscated and removed from the streets. Eighty-five per cent of these weapons were handguns, the most common weapon used in committing murders during the year. Two Chicago police officers, killed in the line of duty during 1976, were slain with handguns. In addition, 10 other officers were shot and wounded during the year, seven by handguns.

SUPERVISORY SECTOR CONCEPT

The Supervisory Sector Concept, created to energize and improve supervision in the Patrol Division, went into effect in February of 1976 in Districts 18, 19, 20, and 23 of Area 6. Recognized as a contributing factor in the Department's reduction of crime for the year, the Sector Concept was expanded to Area 4 (Districts 10, 11, 12, and 13th). Under the Sector Concept, patrol sergeants and officers are assigned to a specific geographic area and held responsible for the crime conditions there. At the same time, the concept enables supervisors to evaluate and to better supervise the performance of their men. More important, it affords better protection for citizens of the community because officers are able to become more familiar with residents living within their sector and are able to develop a closer rapport with them.

PATROL SPECIALISTS

Another new concept, the Patrol Specialist, was created and implemented last year. In keeping with the Department's continuing efforts to provide the most modern tools, techniques and the best training available for its police officers, the role of the Patrol Specialist is to work with probationary officers during their field training in all city police districts. Last year 184 officers were selected, trained and appointed as Patrol Specialists. This new program enables the Patrol Division to identify productive and efficient patrol officers and creates incentives for officers to improve their performance.

SPECIAL OPERATIONS GROUP

Radar equipment, to increase the operating efficiency of the Marine Unit, was installed in three of its six boats last year. This piece of new equipment has been a life-saver, not only for boaters on the lake, but for the Marine Unit as well. Extremely accurate, the radar can discern boats or obstacles on the lake, outline the city shoreline and pinpoint how far south or north the boat is situated.

Recognizing that many citizen calls for assistance are not crime-related, the Police Department expanded its cooperative program with the city's Department of Human Services to include three additional districts. Specially trained personnel now provide social services in the 7th, 19th, 20th and 23rd Districts. The program originally started out as a pilot program in the 20th District. It was found to be invaluable inasmuch as it allowed trained social workers to take over where their services were needed, allowing officers to return to street patrol and other crime related duties. The Human Resources Community Intervention Service Program operates around the clock, seven days a week.

FEMALE DETENTION FACILITIES

In its continuing efforts to streamline Department facilities and operations, Chicago Police decentralized its female lockup facilities last year. This was made possible through the completion of new facilities in Area Centers 4 and 6. Female lockups are now in operation in three Area Centers — 1, 4, and 6 — thus relieving district personnel of the necessity of taking female prisoners to 11th and State as they have in the past. Now, female prisoners are taken to the nearest Area Center for processing.

COMMUNICATIONS OPERATION SECTION

Some very exciting changes took place in the Communications Operation Section during 1976. In September of last year, the Chicago Police Department activated the new police emergency number—911—in keeping with the Department's continuing efforts to provide the best possible police service for our citizens.

The new sophisticated equipment includes an automatic number identification display unit screen, which is situated near the dispatcher. As soon as a call comes into the Communications Operation Section, the caller's phone number and address flashes on the screen. The unique device is essential in cases where victims, who for some reason, forget or do not give their address when calling. For example, some citizens are so frightened they hang up before they give names and addresses. Others, sometimes are ill and collapse before they can give the dispatcher the information.

Pin-pointing of addresses and phone numbers will save lives and will be particularly beneficial in cases where

the elderly, physically disabled or children may need prompt attention.

The device also helps reduce the number of crank and hoax calls. In the first two weeks it was used, two callers who phoned in phony bomb threats were located and arrested through its use.

Earlier in the year, in anticipation of the new 911 phone number, the Section expanded its radio and telephone zones from 11 to 13. In addition, 75 civilian Dispatcher Aides were hired and trained to assist with the volume of calls precipitated by the 911 phone number.

The new police number encompasses all city emergency calls including Fire Department and ambulance calls in addition to those for police service. Dispatcher Aides answer incoming 911 emergency phone calls, jotting down the information received and forwarding same to the police radio dispatcher who makes assignments to beat cars.

With the completion of the "dial tone" first system installed by the Illinois Bell Telephone Company, citizens will now be able to contact the Police Department from a pay phone anywhere in the city by simply dialing the three-digit number (911) without depositing any money.

In addition, the efficiency of the Communications System was further enhanced by the activation of a "Selective Simulcast System" which allows simulcast broadcasts to selected citywide frequencies based on the judgement of the dispatcher.

In 1976, the Communications Operations Section received and handled 4,068,038 phone calls from citizens; with beat cars dispatched on 2,576,612 calls. The remainder, which included referrals to other city agencies for assistance or information, were handled by the Dispatchers.

TRAFFIC DIVISION

During 1976, the Traffic Division played a significant part in the efforts of our city to reduce the number of traffic deaths.

As a result, we had a reduction of 18 fatalities for the year — 321 deaths as compared to 339 in 1975. Personal accidents also showed a decrease; from 33,777 in 1976 as compared to 34,260 the year before. Total accidents for the year decreased as well — 196,459 in 1976 as compared to 197,267 in 1975.

The traffic law enforcement efforts of the Chicago Police Department continued to represent an effective contribution to the enviable traffic safety record of our city.

During 1976, a total of 730,975 arrests for hazardous moving violations were effected by members of the Department, with the Traffic Division responsible for 33% of these arrests. The total of arrests represented an increase of 4.8% over the record for the previous year. The non-

hazard violation efforts of the Department in 1976 also increased, totaling 3,130,991, with the Traffic Division responsible for 48.4% of this total.

In addition, Traffic Division personnel engaged in other phases of police service and effected 897 non-traffic arrests and recovered 247 stolen autos.

Safety Education is an essential element in a comprehensive traffic safety program. Last year, the members of the Safety Education Section presented more than 16,000 safety programs to more than 500,000 persons.

In addition, they presented more than 2,500 Traffic Court Safety lectures and movie presentations to more than 150,000 persons. The court program was created for citizens who appear in court because of a traffic violation.

RE-DEPLOYMENT OF TWO UNITS

To further improve the Department's operations, personnel of the Traffic Division and Special Operations Group were re-deployed for efficiency.

Area Center Traffic Units were reduced from three to two with the remaining units situated at Area Center 6, Belmont and Western, and Area Center 1, at 51st Street and Wentworth Avenue.

Likewise, the Special Operations Group was consolidated and then the four command areas were decreased to three, now operating from Area Centers 1, 6, and Area Center 4, at 3151 West Harrison Street.

NEW POLICE ACADEMY COMPLETED

Construction was completed and the dedication and occupation of the new Timothy J. O'Connor Training Center at 1300 West Jackson Blvd., was achieved in 1976. The new academy included 22 modern classrooms, four lecture halls, offices, combination drill hall and gym, pistol ranges, lunchroom and student lounges. Named in honor of the late Commissioner of Police, who was among the first to recognize the importance of training and education in the police profession, the \$10,000,000 academy contains many new innovations to prepare men and women to receive the finest police training anywhere in the country.

BOMB AND ARSON

During 1976, the increasing seriousness of fires in certain near west side neighborhoods resulted in a reorganization of the Bomb and Arson Unit. The unit was quadrupled in size to include Fire Department investigators deployed to provide prompt around-the-clock investigations in response to suspicious fires, explosions, suspect devices and bomb threats. In July, the late Mayor Richard J. Daley appointed Deputy Mayor Kenneth Sain to head a newly created Special Arson Task Force.

The mission of the new group was to work with the residents of the East Humboldt Park area to reduce fires — accidental and arson — which were occurring at an alarming rate. Deputy Sain assembled representatives from many governmental agencies, including Police and Fire Departments, to assist in solving the problem. Investigators responded to all fires and vacant buildings were inspected three times a day by district personnel. Two extra fire engine companies were added to the area and a new police hot line phone number was established for persons having information for police. All of these combined efforts were instrumental in reducing the frequent and escalating number of fires.

THE YOUTH DIVISION

In 1976, a Youth Division unit concentrating on teen-age and school narcotic and drug problems, was responsible for two of the largest single purchases of PCP (phencyclidine, an animal tranquilizer classified as a hallucinogen) in the United States. These arrests were instrumental in locating a laboratory in Michigan City, Indiana and the subsequent confiscation by the Drug Enforcement Agency of PCP with a street value of 24 million dollars.

In addition, personnel of this unit effected the arrests of 297 persons (183 adults and 114 juveniles) for drug related offenses; confiscated 27 vehicles (used in narcotic traffic) nine handguns and six long guns; and large quantities of narcotics and drugs with a total street value of more than \$12,000,000.

Police Mounted Patrol parade down State Street.

TYPES OF DATA PRESENTED

The tabulations and graphs which follow give data on crimes reported, on arrests and other results of police performance.

The basis of reporting the data is identified as either the 12-month calendar year or the 13-period, Chicago Police year - - - each Period contains 28 days. Differences may be seen on comparing Tables 1 and 2 and Tables 3 and 4.

12 - MONTH YEAR (1 January through 31 December, 1976)

The 12 - Month calendar year (365 days) is used where the date relates to the FBI, City of Chicago and certain other reports.

13 - PERIOD YEAR (8 January 1976 through 5 January 1977)

The 13 - period year is used so that valid comparisons can be made according to workload. Each of the 13 - periods has 28 days, and each of the four weeks in a period begins on the same day of the week. As a result each week and period, with the same number of days, has the same number of Fridays, Saturdays, and Sundays when peak work loads occur.

Attendance 115,882

Physical/Facility Security Surveys
Conducted, including follow-up visits 743

Operations Identification Program
Total Participation 5,988

Speaking Engagements 323
Attendance 16,380

Graphic Arts

Identification Sketches prepared
from victims and witnesses 212

Layouts, Maps, Charts, Posters, Graphs,
Blueprints, prepared 13,346

Photo Negatives & Prints
for Identification & public service 433,224

35 MM. Slides for audio visual 14,229

16 MM. Film for audio visual (feet) 38,792

Slide and film presentations 135

- (a) At least one meeting per month in each district (except Central), steering committee meetings not included.
- (b) Neighborhood problems investigated by district community service personnel.
- (c) School year ending June 1976. Series of visits to classrooms, kindergarten through 8th grade.
- (d) Participation by district personnel in The Mayor's Neighborhood Program, includes tours, field trips, sports events, etc., for ages 8 through 18 and employment referrals for high school youth and young adults.

District Steering Committee members have opportunity to exchange experiences and information on respective problems at the annual Police-Community Citywide Workshop meeting held each spring.

21. Communications

13 Period Year (8 January 1976 through 5 January 1977)

Incoming Telephone Calls Answered(a) 4,068,038

Radio Calls Made

Dispatching (b) 2,576,612
Other (Administrative, etc.) 2,344,208
TOTAL 4,920,820

Messages Sent (c)

Facsimile 1,069,754
Teletype 26,050

Point-to-Point Radio Messages (d)

Stolen Auto Inquiries
Received 8,909
Other Messages Sent or Received 28,352

- (a). Includes all 911 calls received by dispatchers whether from citizens or other agencies and whether resulting in vehicles dispatched, referrals made or instructions given. Also includes 744-4000 Centrex calls.
- (b). Radio dispatch cards made. Does not include extra (assist) cars sent through the initial dispatch.
- (c). To Districts and other Department units. Facsimile transmission used for operational messages; Teletype for administrative messages.
- (d). Suburban, Statewide and Nationwide.

23. Field Inquiries

13 Period Year (8 January 1976 through 5 January 1977)

Wanted Persons Inquiries

Computer 359,158
Manual (a) 56,220
TOTAL 415,378

Stolen Auto Inquiries

Computer 610,347
Manual (a) 34,868
TOTAL 645,215

Inquiries into

NCIC (b) 619,743

Inquiries Via

LEADS (c) 583,781

Warrants

Registered 175,889
Served 108,400
Extraditions and Turnovers 1,541

- (a). Manual searches made when computer was inoperative due to maintenance, reorganization, etc.
- (b). Inquiries into computer at National Crime Information Center, Washington, D.C.
- (c). Messages via the 48-state network of the Law Enforcement Agencies Data System include vehicle registration inquiries to Springfield, Illinois.

22. Record Processing

13 Period Year (8 January 1976 through 5 January 1977)

Radio Dispatch Cards Sorted 2,338,156
Case Reports Processed *515,500
Supplementary Reports Processed 355,905
Traffic Reports Processed *212,875
Copies Made and Distributed 6,325,882
