

DON'T BE OUTSMARTED BY THE SMART PHONE THIEF!!!

Theft prevention Tips:

- Public transportation can be a hotspot for cell phone theft. Keep your device stored away until you arrive at your destination.
- Consider your surroundings and use your device discreetly.
- Never leave your device unattended in a public place or visible in an unattended car.

Before a loss or theft:

- Note the device's make, model number and serial number, as well as its unique device identification number (IMEI, ESN or MEID)
- Establish a strong password to restrict access.
- Install and maintain anti-theft software that allows you to locate your device, lock your device and/or wipe sensitive data from the device.

After a loss or theft:

- Report the theft to the police immediately.
- Activate the anti-theft software on your device.
- Report the theft or loss to your service provider.
